How To Apply Discount To Nth Quantity

Discount Conditions · https://rextheme.com/docs/how-to-apply-discount-to-nth-quantity/

Reward customers who buy in larger quantities by offering a special discount on a specific item in the order.

With the **Dynamic Discount for WooCommerce** plugin by RexTheme, you can automatically apply a discount to the Nth product — for example, “Get $10 off on every 5th product.”

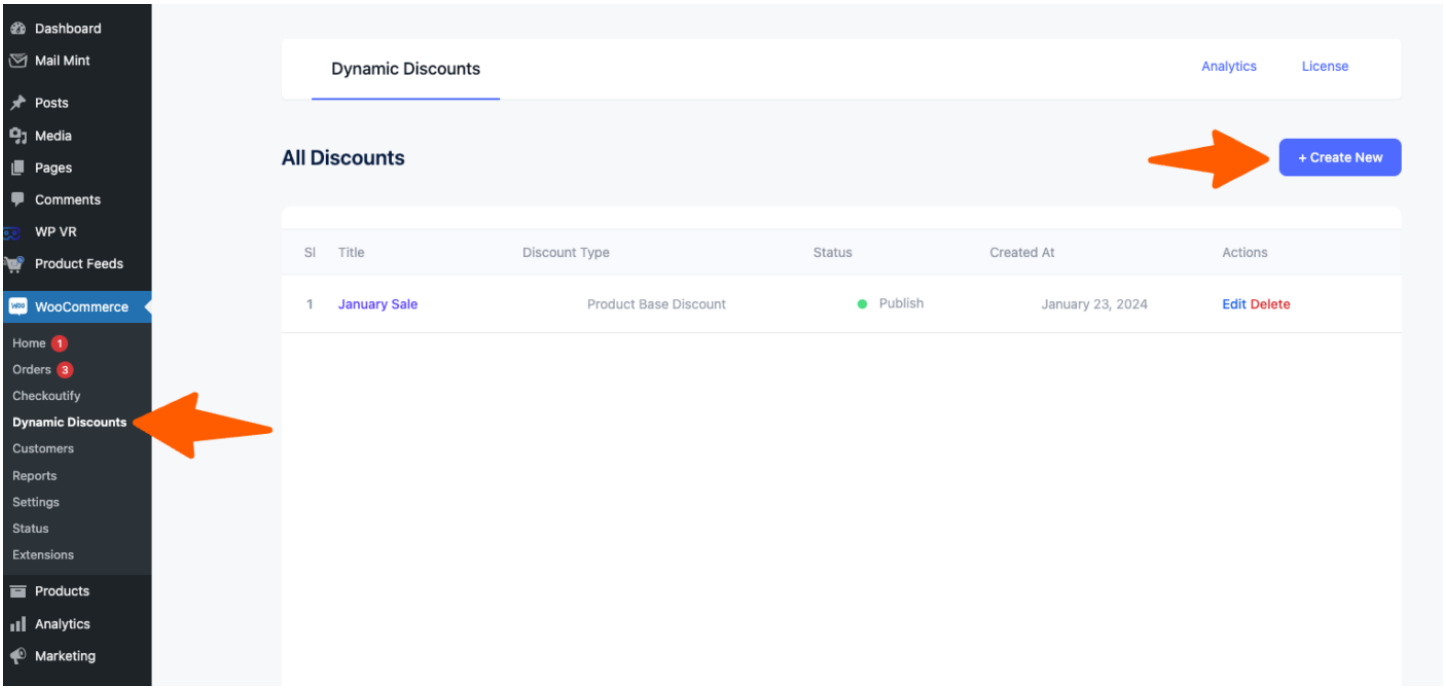
This guide will walk you through how to:

- Set a discount that applies only to a specific item in the purchase sequence (e.g., 5th, 10th, etc.).
- Choose between fixed or percentage-based discounts for that Nth quantity.

Before starting, make sure your license is activated.

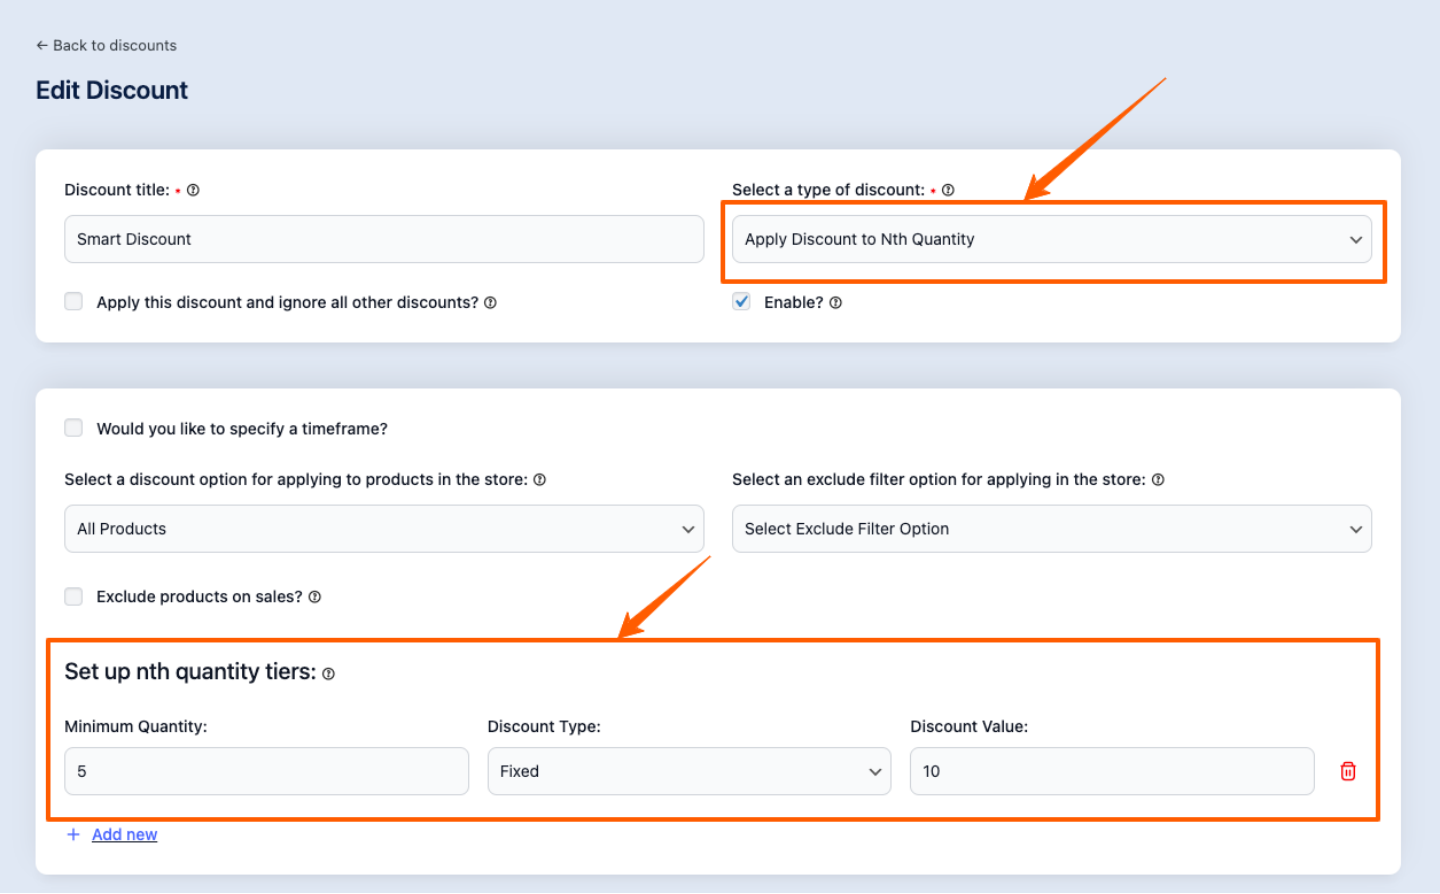
Follow the steps below to navigate to the Dynamic Discount Dashboard:

Hover on **WooCommerce dashboard** > **Dynamic Discounts**. As you can see, it will take you to the page where you can create a discount rule. On top, you will see a Button **+ Create New.**



Creating Discount for "Apply Discount to Nth Quantity"

1. Give your discount a title. Now from the Discount type dropdown, select **"Apply Discount to Nth Quantity"** and 2 new sections will be added below



2. Now **"Select the Discount option for applying to products in the store"**. You select the Discount Rule for

- All Products
- Specific Products
- Specific Category
- Specific Tag

You can also exclude products based on:

- Product
- Category
- Tag

3. Now for **Set up nth quantity tiers**

Set the Minimum Quantity for the Discount Rule to activate

Select the Discount Type: Percentage or Fixed Discount

Select the Discount Value

Example

Regular Price of a Product: $100

Discount Rule: Apply Discount to Nth Quantity

Minimun Quantity: 5

Discount Type: Fixed

Discount Value: 10

That means, the 5th product will have a discount applied to it. The individual price of the 5th product will be $90.

And the total cart value will be: 400 + 90 = $490 instead of $500

4. Now click on the **Save** button.

That’s it **"Apply Discount to Nth Quantity"** Discount Rule is created.

Now that you are familiar with how the **Dynamic Discounts for WooCommerce** plugin works, in the upcoming documentation you’ll learn about the other discount types
