How To Set The Cheapest Product On Cart Discount

Discount Conditions · https://rextheme.com/docs/how-to-set-cheapest-product-on-cart-discount/

Encourage higher cart values by rewarding customers with a discount on the cheapest product in their cart.

Using the **Dynamic Discount for WooCommerce** plugin by RexTheme, you can automatically apply a fixed or percentage discount to the lowest-priced item when customers add multiple products to their cart.

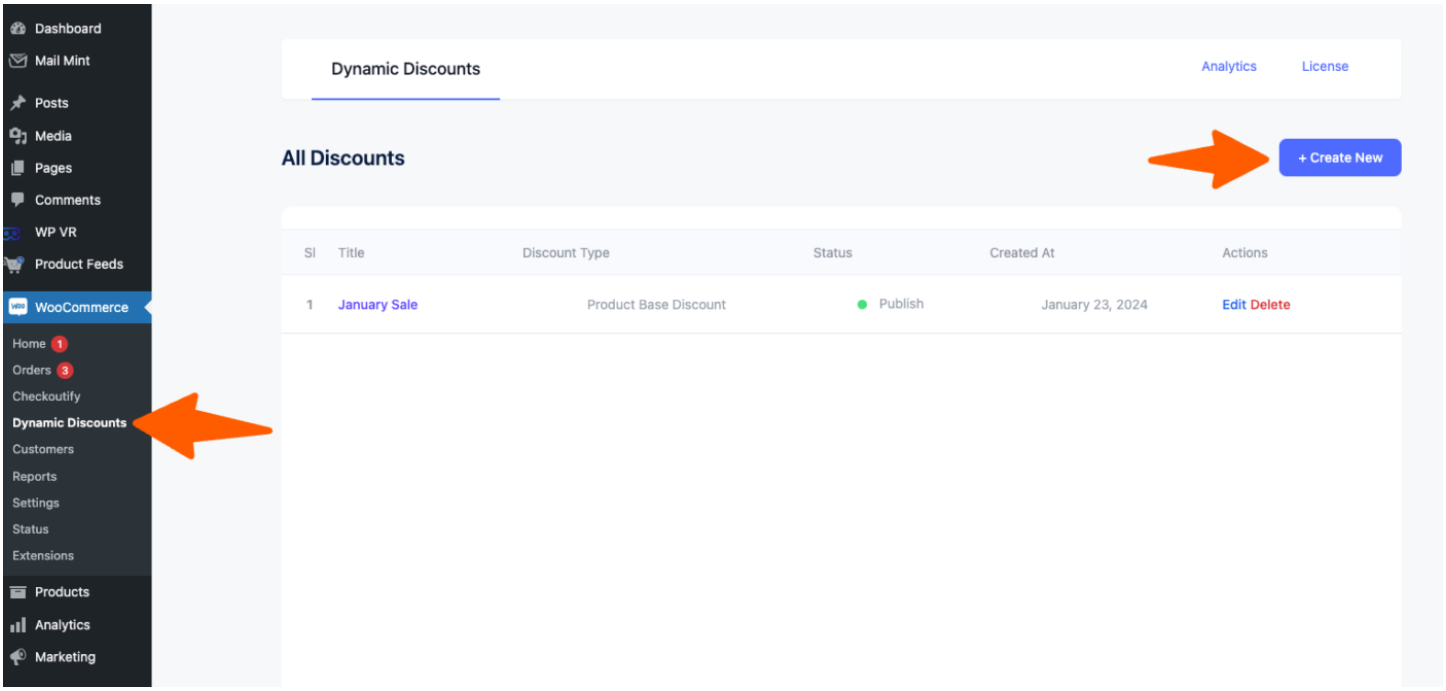
This guide will walk you through how to:

- Automatically detect and discount the cheapest product in the cart.
- Choose between fixed or percentage-based discount types.

Before starting, make sure your license is activated.

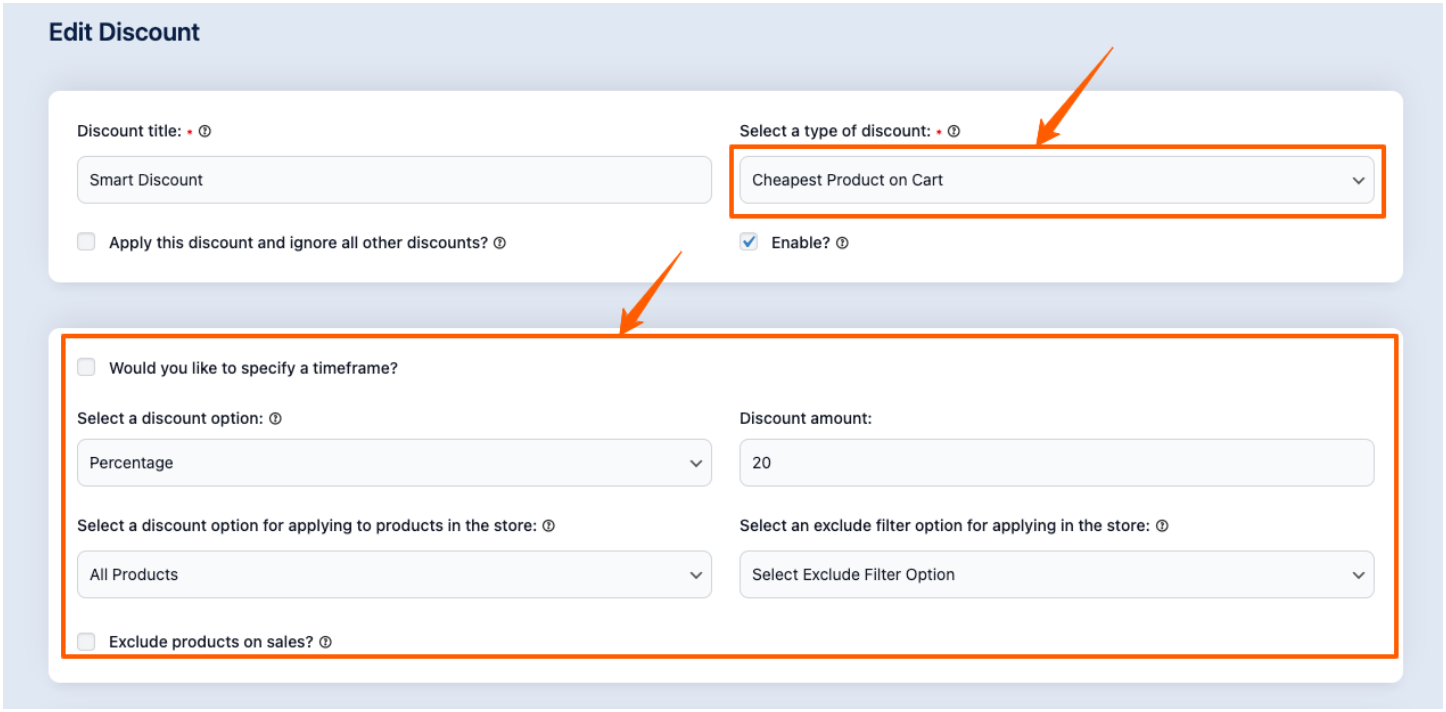
Follow the steps below to navigate to the Dynamic Discount Dashboard:

Hover on **WooCommerce dashboard** > **Dynamic Discounts**. As you can see, it will take you to the page where you can create a discount rule. On top, you will see a Button **+ Create New.**



Creating "Cheapest Product On Cart Discount"

1. Give your discount a title. Now from the Discount type dropdown, select **Cheapest Product on Cart Discount** and 2 new sections will be added below.



2. Now select the discount option:

- **Percentage Discount:** Percentage discount will be applied to the cheapest product on the cart
- **Fixed Discount:** Fixed discount will be applied to the cheapest product on the cart

Select the discount amount

Now **"Select the Discount option for applying to products in the store"**. You select the Discount Rule for

- All Products
- Specific Products
- Specific Category
- Specific Tag

You can also exclude products based on:

- Product
- Category
- Tag

3. Now click on the **Save** button.

That’s it, **Cheapest Product on Cart** Discount Rule is created.

Now that you are familiar with how the **Dynamic Discounts for WooCommerce** plugin works, in the upcoming documentation you’ll learn about the other discount types
