# How To Replace Space With Hyphen In A Feed Attribute Data

Understanding Basic Feed Configuration · https://rextheme.com/docs/how-to-replace-space-with-hyphen-in-a-feed-attribute-data-2/

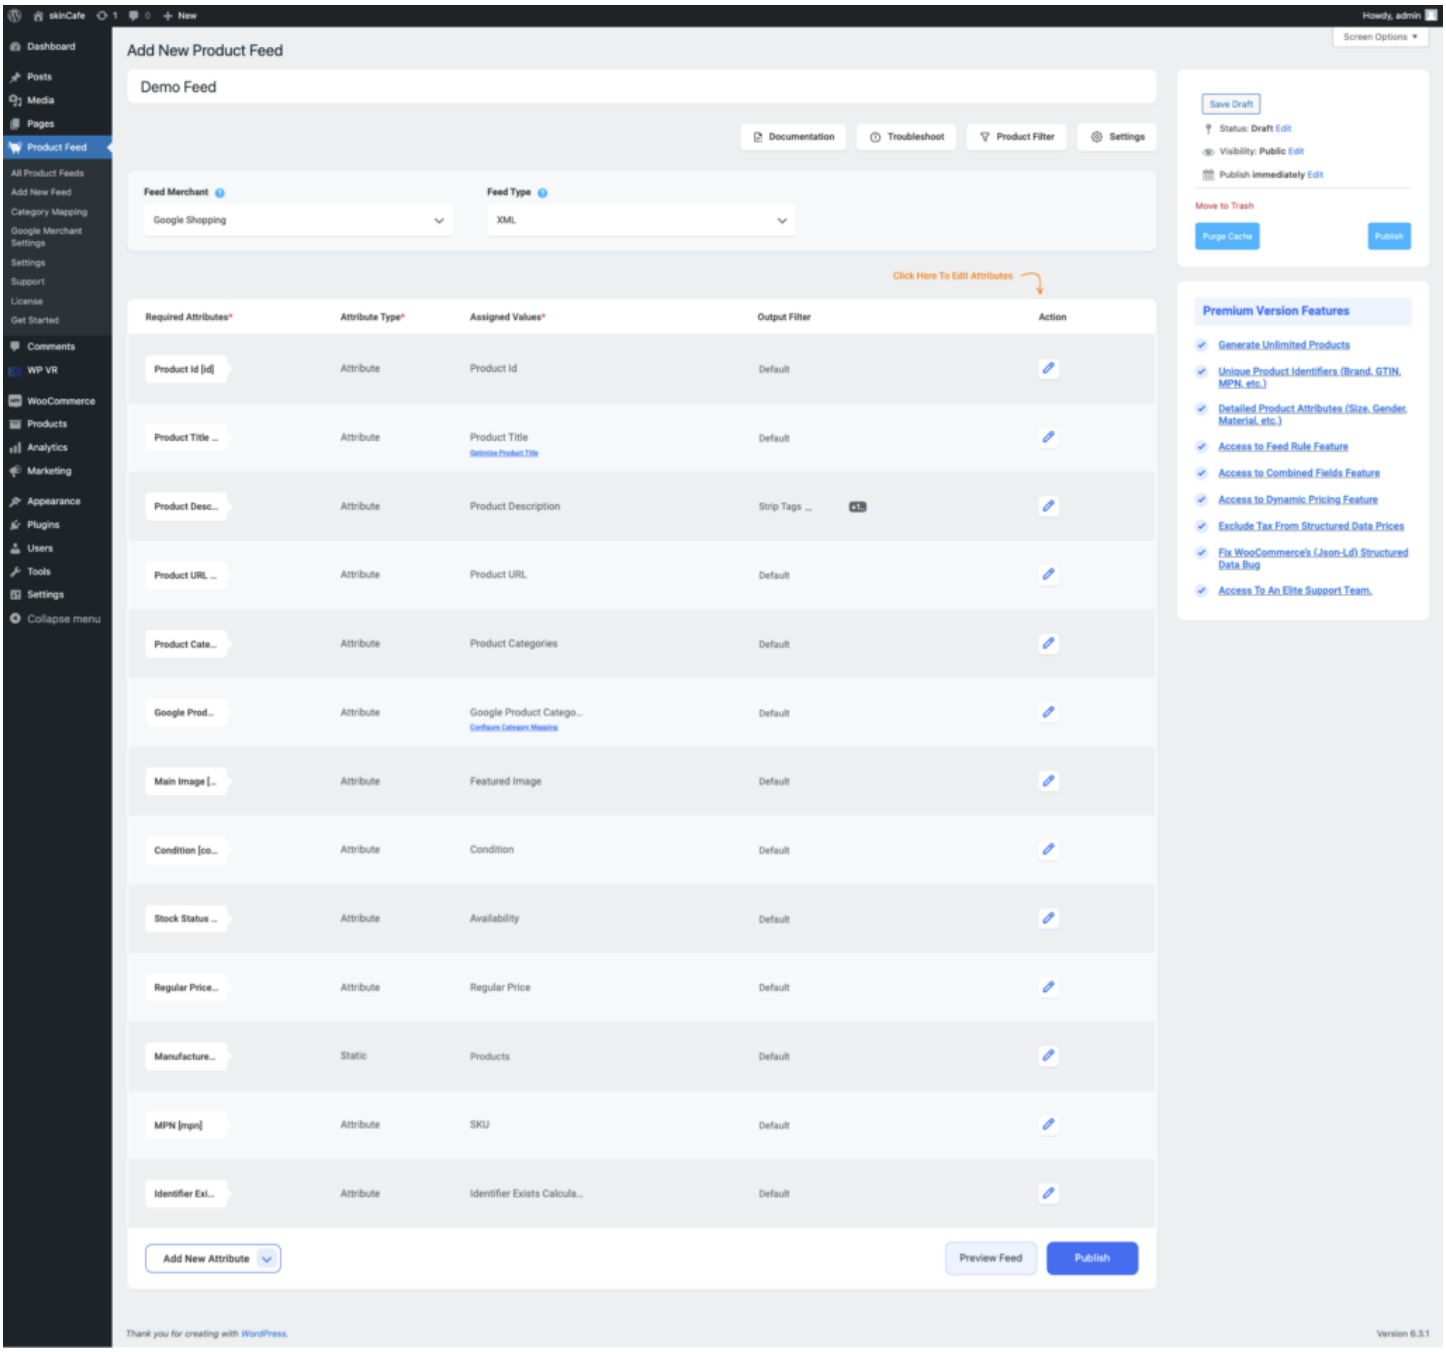
At times, you might find the need to replace spaces with hyphens in an attribute field, and accomplishing this task is made simple with the Product Feed Manager for WooCommerce plugin.

In this guide, I will demonstrate the straightforward process of replacing spaces with hyphens (-) using this plugin.

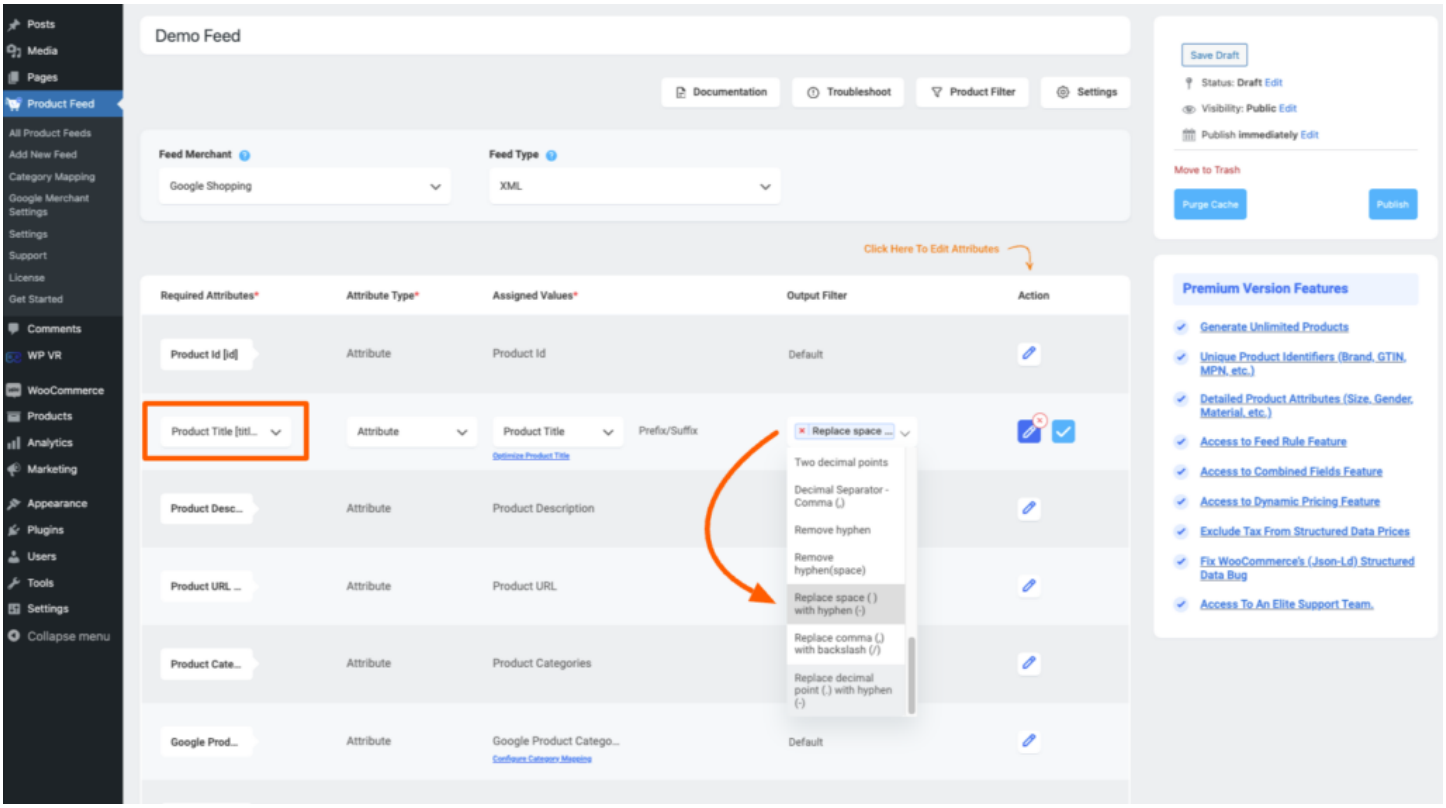
Follow the easy steps:

**1.** At first create a new feed >> select a merchant or open your existing feed.

2. Scroll down to the Feed Configuration section, and here you will find all the required attributes as per your selected merchant.



**3.** Click on the Output Filter dropdown field of the concerned attribute and select "**Replace Space With Hyphen**" from the dropdown list.



**4.** Finally, click on the **publish**/ **update** button to publish/ update the feed.
