Welcome to the setup guide for **Catalog Mode for WooCommerce**

Transform your WooCommerce store into a fully functional **product catalog** with ease using our **Catalog Mode for WooCommerce** plugin. This plugin lets you showcase all your products without enabling the purchase functionality, making it perfect for stores that want to display products as catalog without selling online.

With this plugin, you can easily **Hide Product Prices**, **Hide the “Add to Cart” button**, and create a clean, professional **product showcase** tailored to your store’s needs.

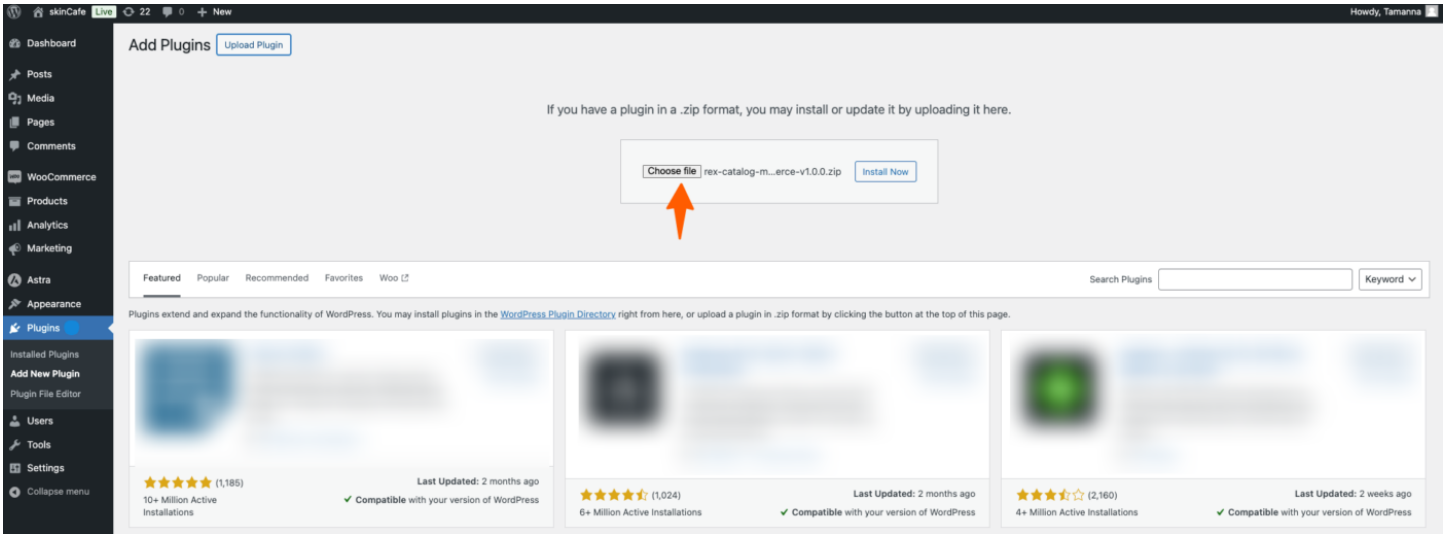

Follow these simple steps to **install and activate Catalog Mode for WooCommerce** on your website and start customizing your catalog today:

Install & Activate the Catalog Mode for WooCommerce

** Please make sure you have WooCommerce installed and activated on your site.

1. Once you have the Zip file of the Pro plugin for **Catalog Mode for WooCommerce** and the license key copied, log in to your **WordPress site** and go to **Plugins > Add New**.

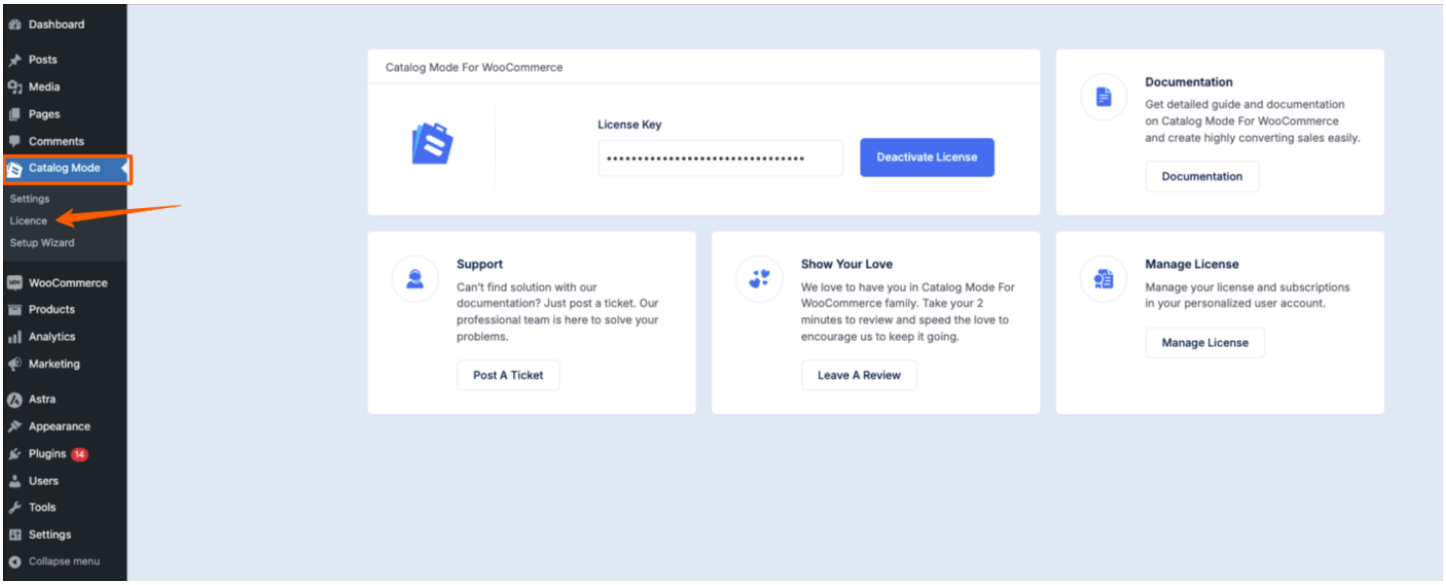

2. Then, on top, click on **Upload Plugin** and upload the Zip file of the **Catalog Mode for WooCommerce** that you downloaded earlier.

3. Then click on **Install** and then **Activate** it.

Activate The License Key For Catalog Mode for WooCommerce

1. Once the plugin is **Activated**, you will see the Catalog Mode plugin on your Dashboard. Click on the License tab. Enter the license and press the "**Activate License**" button. Once activated, you will get a confirmation.

That's it the plugin is now activated.
