Reward customers and increase order volume by offering free products when they buy a certain quantity. With the **Dynamic Discount for WooCommerce** plugin by RexTheme, you can automatically add one or more free products to the cart once specific purchase conditions are met.

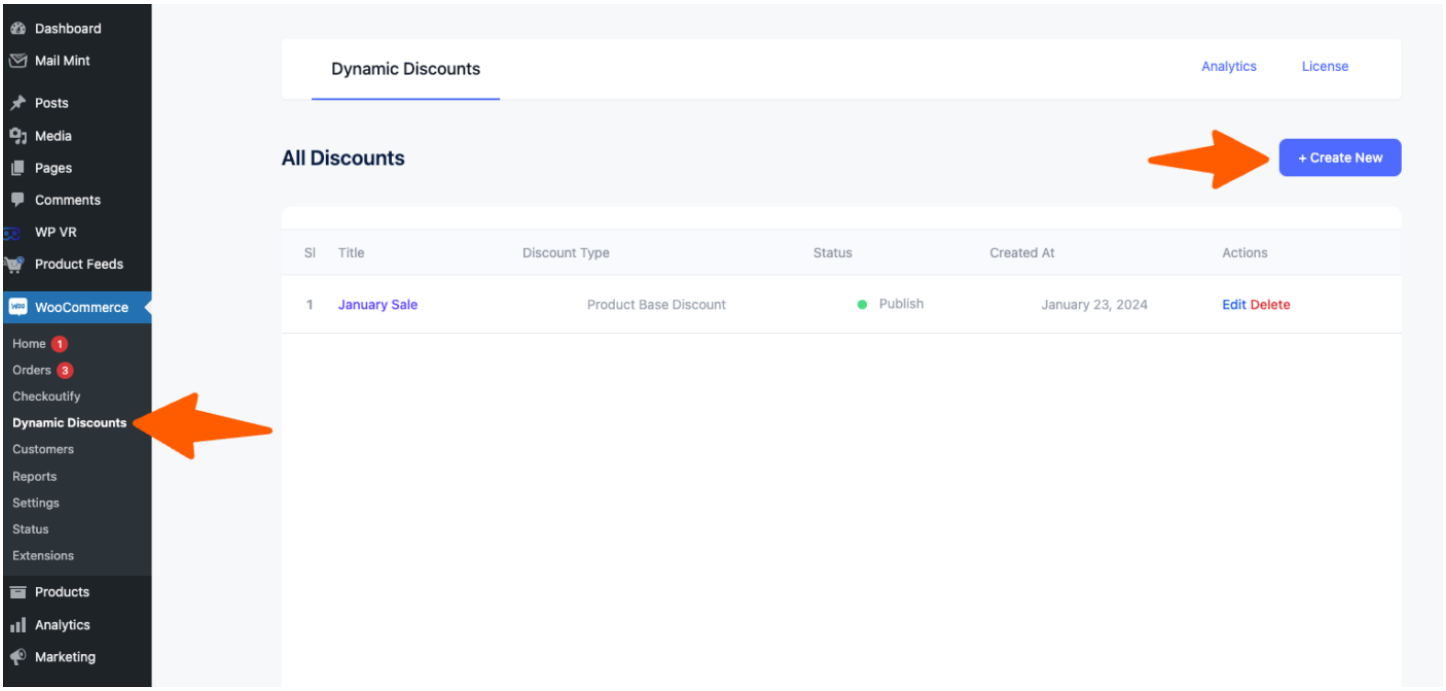

This guide will walk you through how to:

- Set a minimum quantity requirement for triggering the offer.
- Choose which product(s) will be given for free.

Before starting, make sure your license is activated.

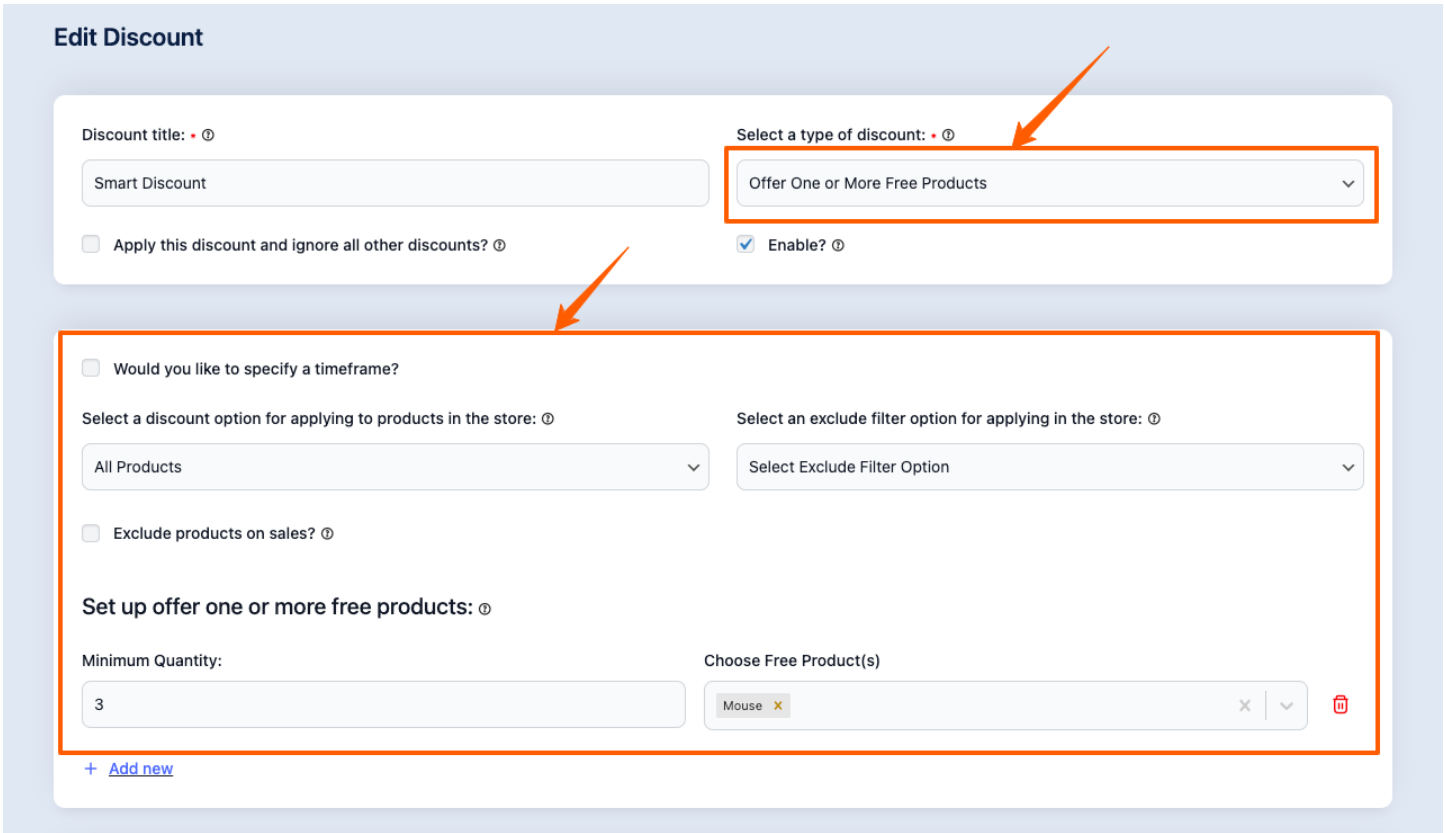

Follow the steps below to navigate to the Dynamic Discount Dashboard:

Hover on **WooCommerce dashboard** > **Dynamic Discounts**. As you can see, it will take you to the page where you can create a discount rule. On top, you will see a Button **+ Create New.**

Creating "Offer One Or More Free Products" Discount

1. Give your discount a title. Now from the Discount type dropdown, select **"Offer One or More Free Product"** and 2 new sections will be added below.

2. Now **"Select the Discount option for applying to products in the store"**. You select the Discount Rule for

- All Products
- Specific Products
- Specific Category
- Specific Tag

You can also exclude products based on:

- Product
- Category
- Tag

3. Now for **Set up offer one or more free products**

- Select the Minimum Quantity for the free product
- Choose the free product (you choose multiple free products)

Example:
Minimum Quantity: 3
Choose Free Product(s): Mouse
If the customer buys 3 of any product from your store, they will get one mouse for free

4. Now click on the **Save** button.

That’s it, "**Offer One or More Free Products**" Discount Rule is created.

Now that you are familiar with how the **Dynamic Discounts for WooCommerce** plugin works, in the upcoming documentation you’ll learn about the other discount types
