# How to Upgrade to Pro – PFM

Upgrade To PFM Pro · https://rextheme.com/docs/how-to-upgrade-to-pro/

## Get Product Feed Manager For WooCommerce Pro

You can upgrade to PFM Pro from the dashboard.

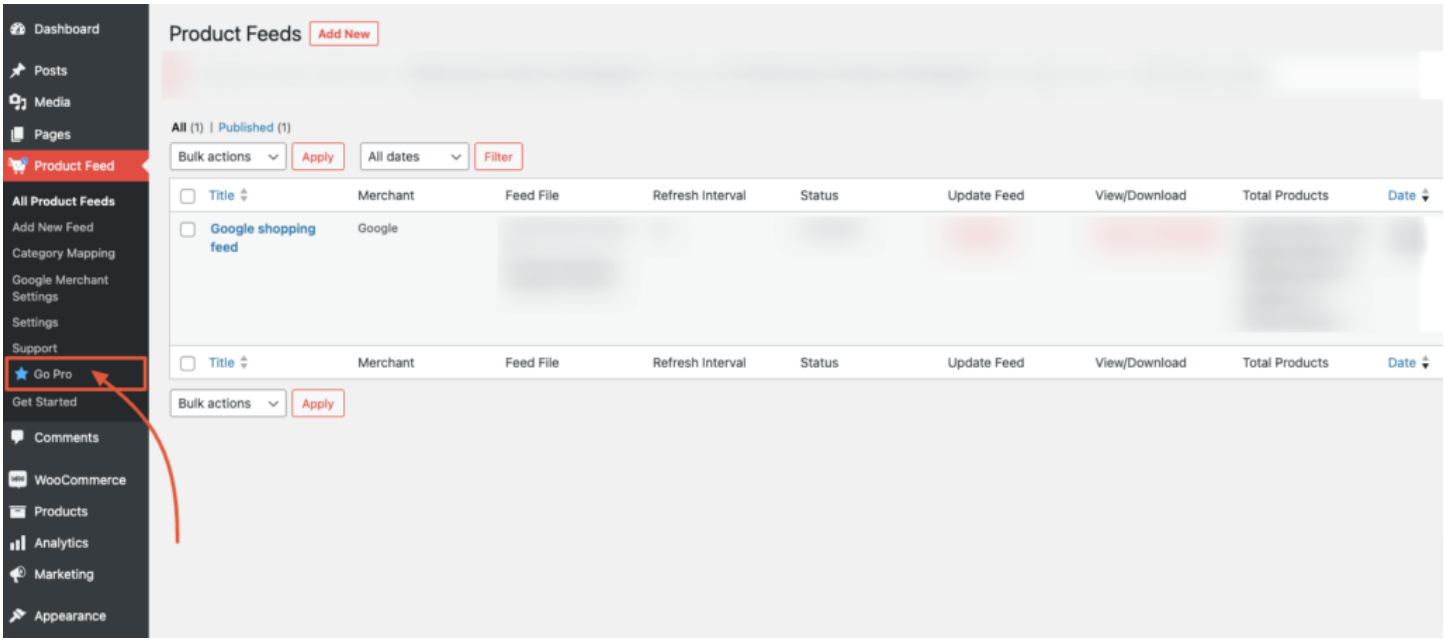

Here's a video tutorial or you can follow the written documentation below.

Video guide on how to Upgrade to Pro:

**Written Guide:**

Go to **Dashboard > Product feed**. And click on **Go Pro**.

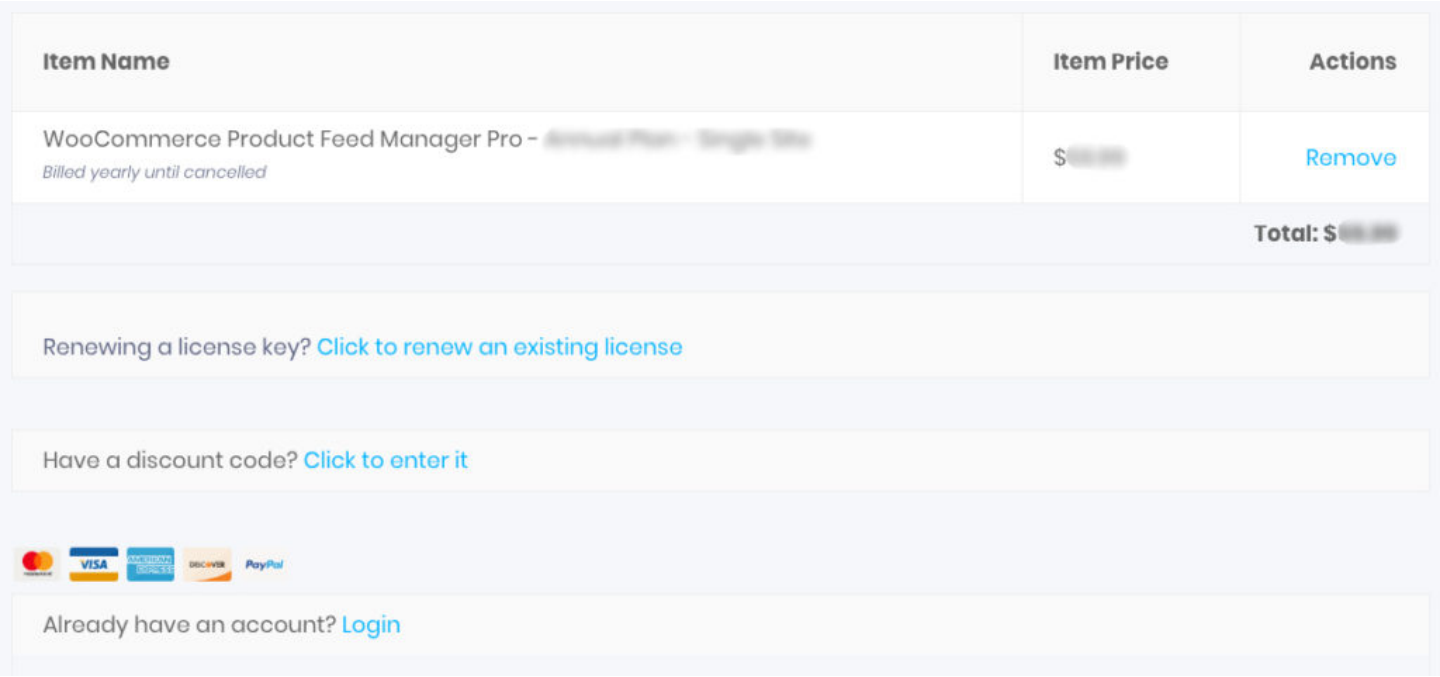

This will take you to our official website plugin pricing page https://rextheme.com/best-woocommerce-product-feed/pricing/. (You can also go to the link directly if you want.)

Once you click on '**Go Pro**' you will be able to see all of our lucrative plans.

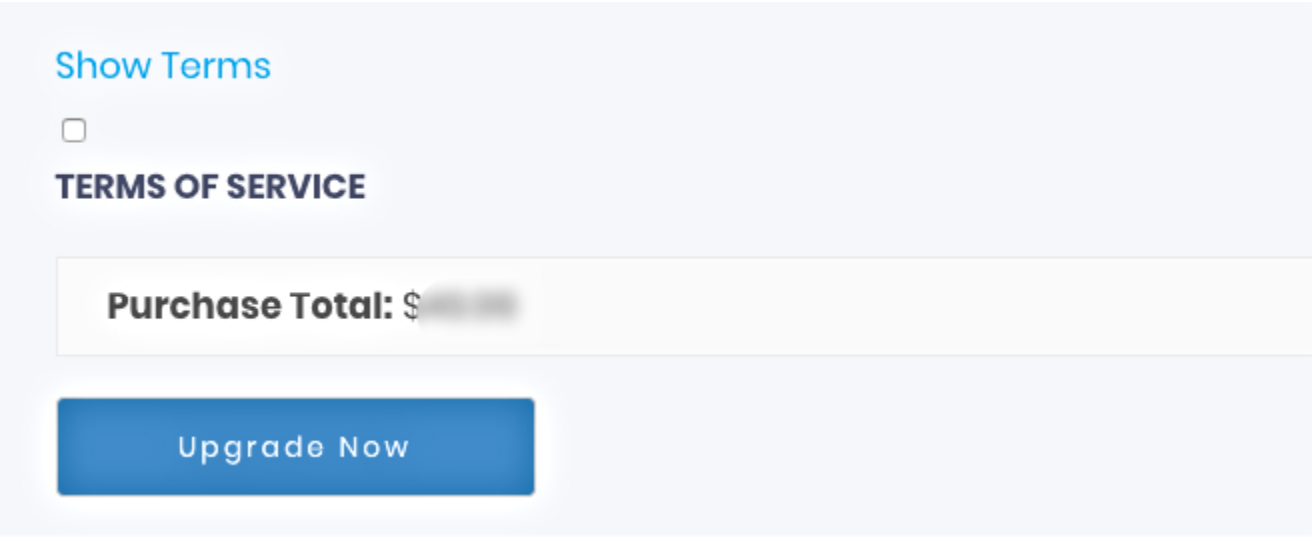

As you can see, we have great plans that are very affordable. Choose the plan that suits you and click on the **Buy Now** button below the plan you decided to go with.

Once you click on Buy Now, it will take you to the **Checkout Page.**

To complete the purchase you need to be signed up on our customer portal. If you do not have an account, below the checkout page, you will be required to fill out some basic information and create a Customer Account on rextheme.com (so that you can easily track your purchase history, license(s) purchased and the website(s) in which you used the PFM Pro license).

Below, there is a link called **Show Terms**. Click on it and make sure to read the terms and conditions.

Once you have read the terms and conditions, **mark the checkbox** and click on the **Upgrade Now** button to proceed to the payment procedure where you can complete the purchase.

You will be notified that the purchase is successful. You will also get an e-mail from us which will include your purchase details, license key, and a downloadable PFM-Pro zip file.

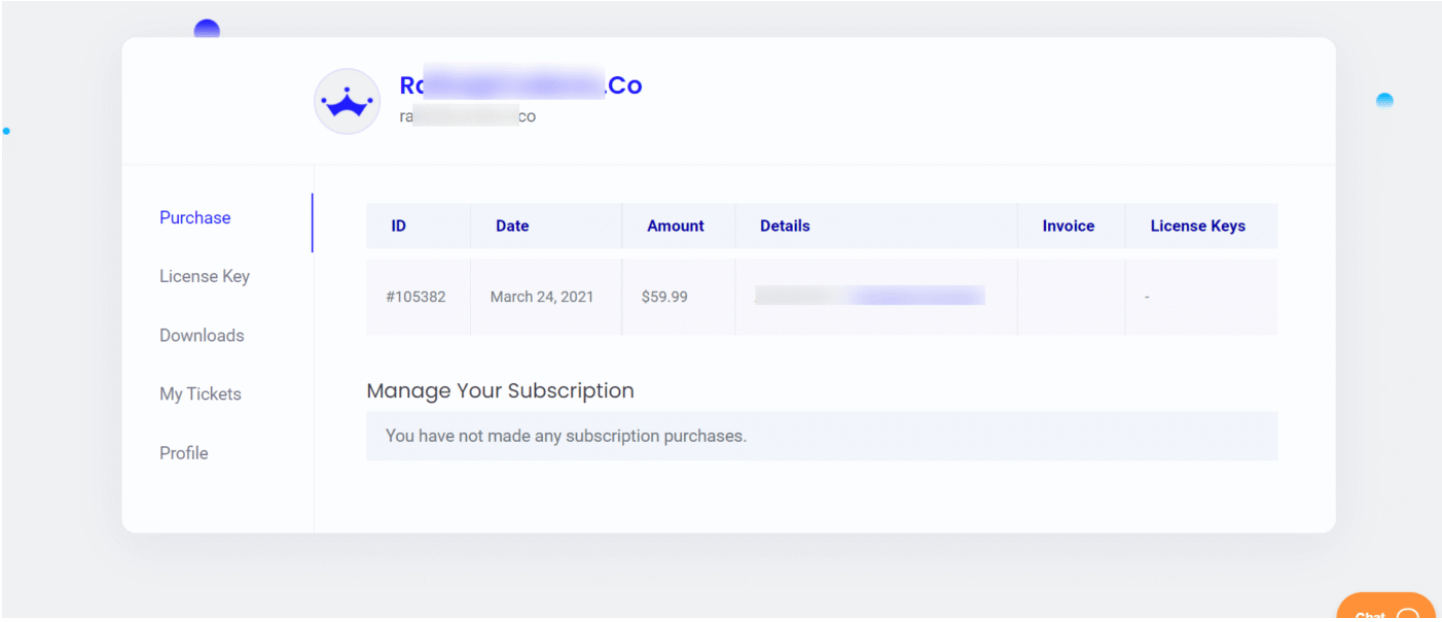

## Collecting PFM Pro License Key(s)

To collect the license key, go to https://rextheme.com/, and on the right side of the menus, click on **Account**.

If you are not logged in, you will need to log in with the ID and Password that you set at the time of purchase. Else, you will be taken to your account page.

Here’s what your account page will look like.

Go to the **License Keys** Menu and you will find the license key(s) on the left side, which you can copy.

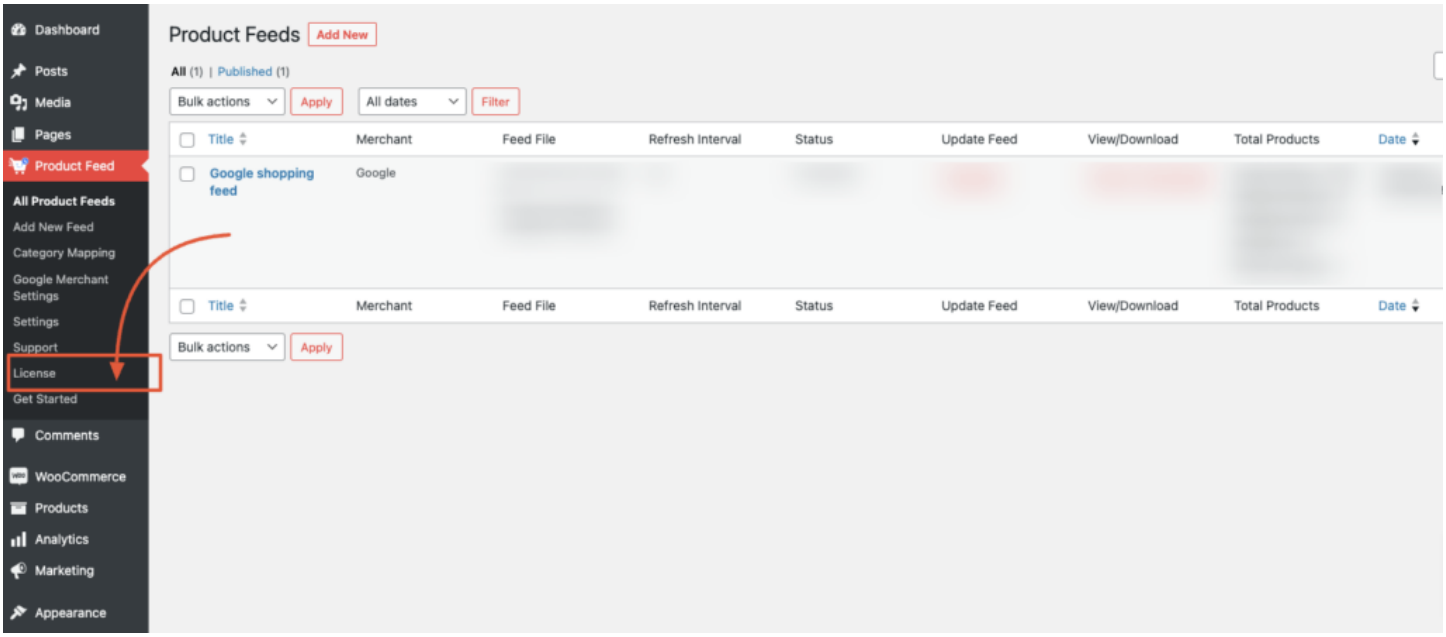

## Completing The Upgrade To PFM Pro

Once you have the PFM-Pro zip file and the License Key(s), you are ready to upgrade the plugin to Pro.

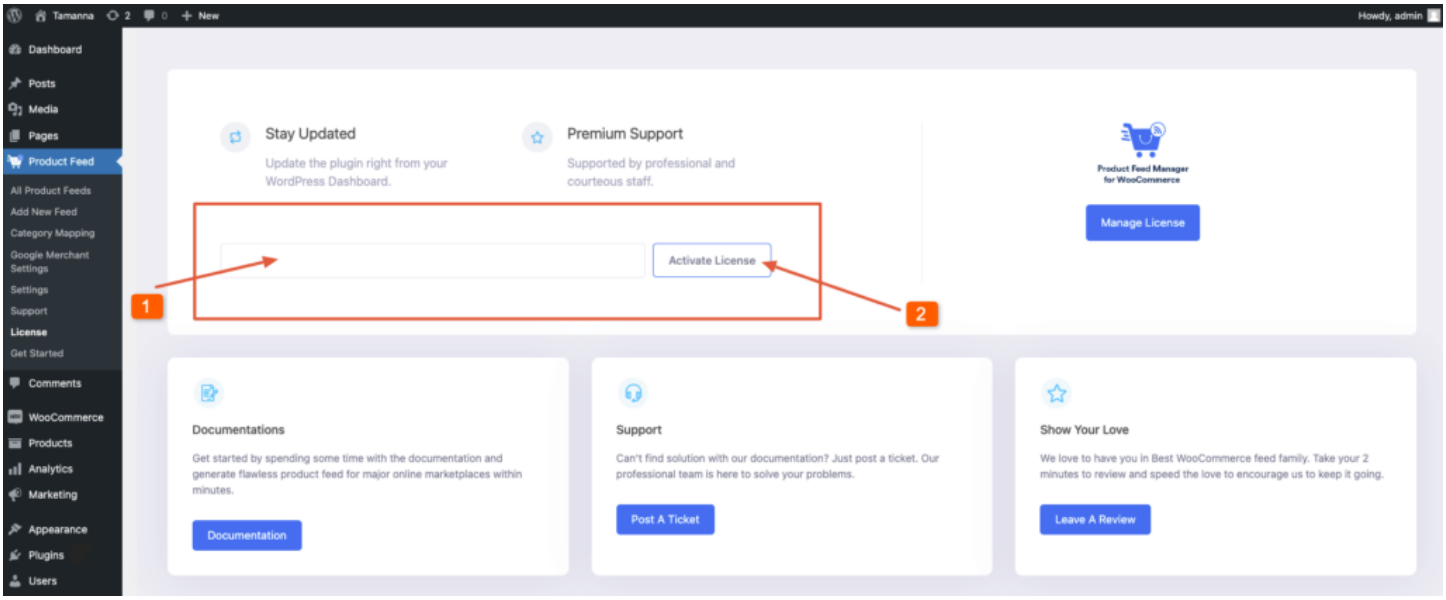

**FYI: Make sure that you have the free version installed and activated on your website for the upgrade to be successful.**

Now, go to your **Dashboard> Plugins > Add New**. In the top left corner, you will get the option to upload the plugin. Click on that and upload the PFM-Pro zip file.

Once you upload, install, and activate Product Feed Manager For WooCommerce Pro, you will notice on your dashboard, a new tab has been added under the product feed called **License**.

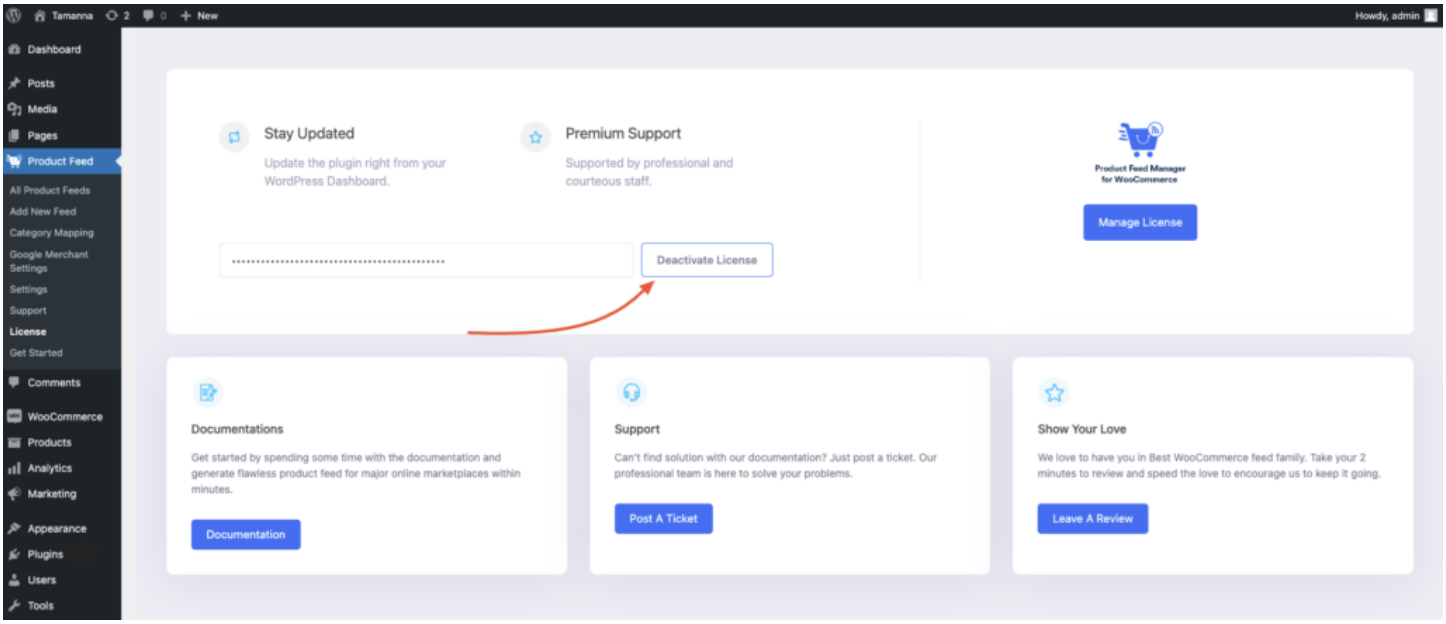

Plus, you will be redirected to the License tab under Product Feed, on your dashboard.

Enter the License Key on the provided field and click on the **Activate License** button.

It will activate the license.

Once you click on the Activate License, you will see that the button text has changed and you will get the option to Deactivate the License.

That’s it. You now have full access to all the Premium features of Product Feed Manager For WooCommerce.
