Marketplace Auto Sync is the latest plugin from RexTheme. This is a powerful tool designed for effortlessly managing product listings across various marketplaces.

This guide provides a simple step-by-step process for installing and activating the Marketplace Auto Sync plugin.

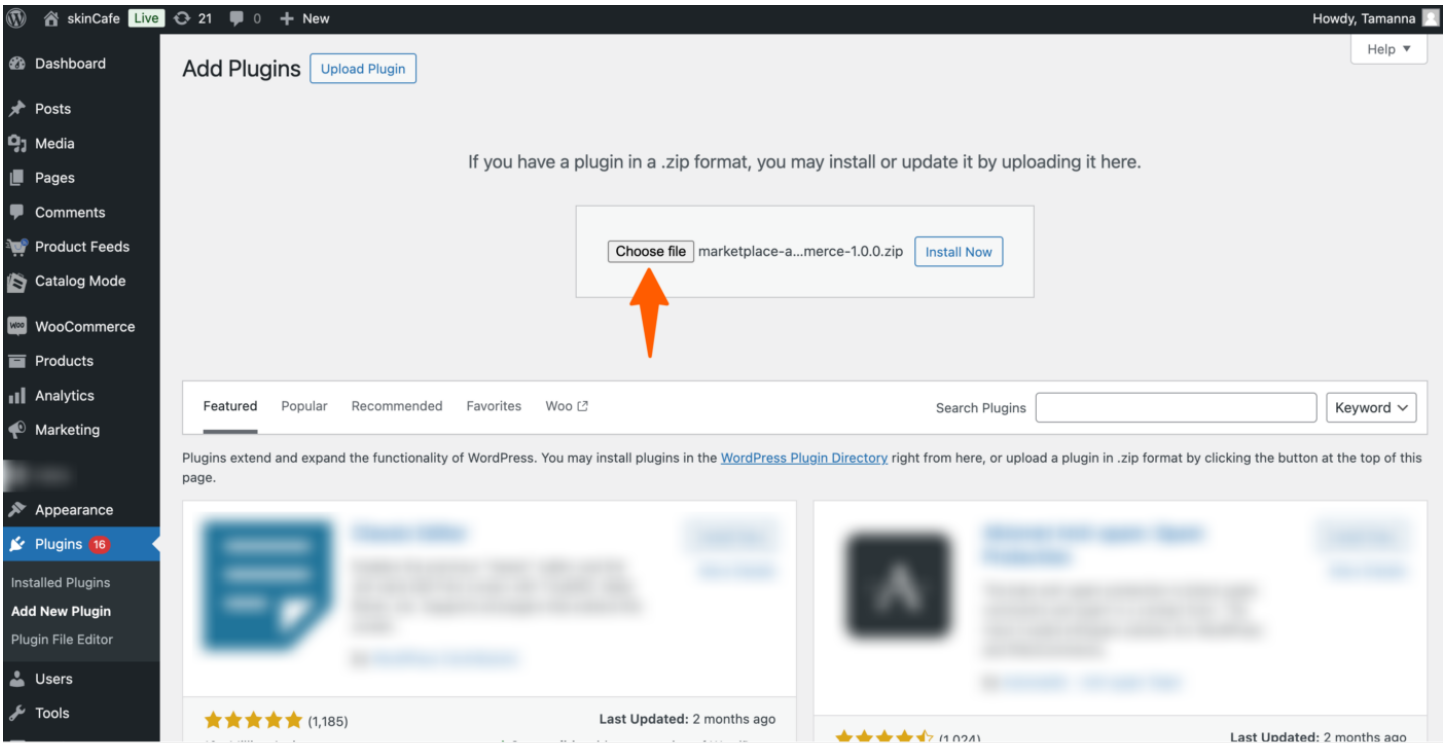

Follow the instructions below to enhance your product management experience.

Install & Activate Marketplace Auto Sync

** Please make sure you have WooCommerce installed and activated on your site.

1. Once you have the zip file of the Pro plugin and the license key, log in to your WordPress site and go to **Plugins > Add New**.

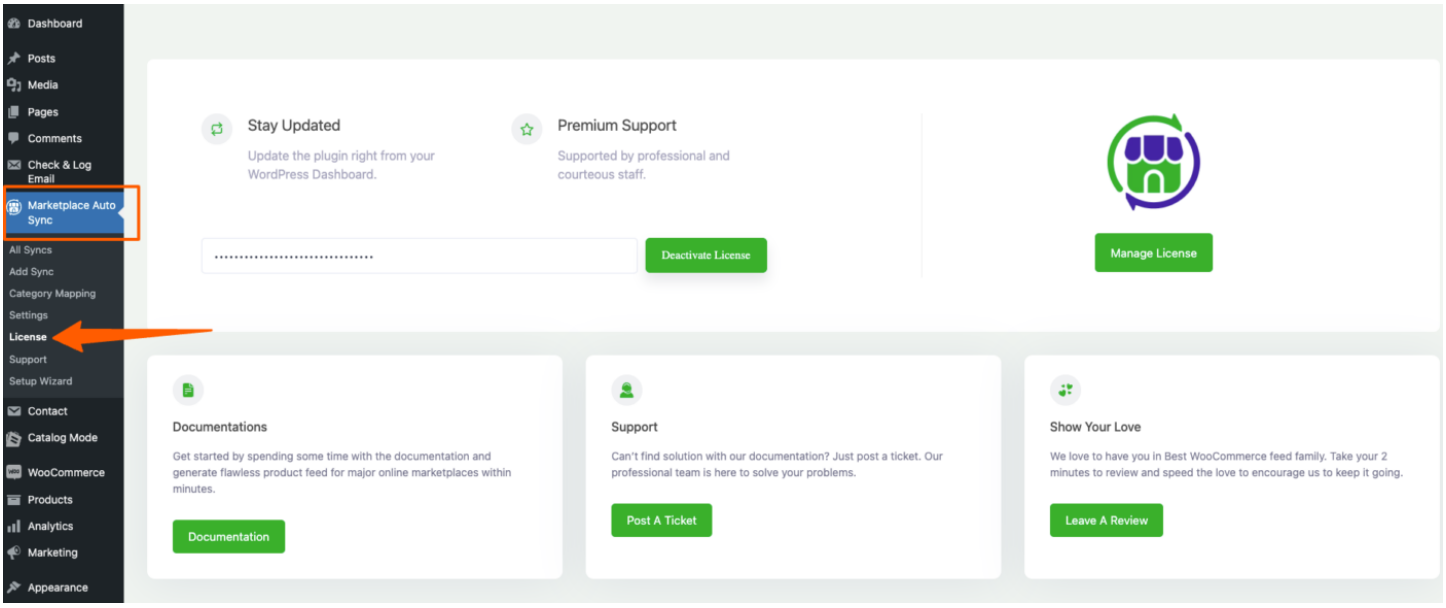

2. Then, on top, click on **Upload Plugin** and upload the zip file of the **Marketplace Auto Sync** that you downloaded earlier.

3. Then click on Install and then Activate it.

Activate The License Key For Marketplace Auto Sync

1. Once the plugin is activated you'll see the Marketplace Auto Sync plugin in your Dashboard. Click on the License tab. Enter the license and press the **Activate License** button. Once activated, you will get a confirmation.

That's it the plugin is now activated.
