How to Set State Based Shipping Conditions in Advanced Shipping

Shipping Conditions · https://rextheme.com/docs/how-to-set-state-based-shipping-conditions-in-advanced-shipping/

In this guide, I'll explain how to set up **state-based shipping conditions** in **Advanced Shipping for WooCommerce** plugin by RexTheme.
You can control shipping costs based on the **customer's state**, allowing you to charge different rates for different regions.

For example:

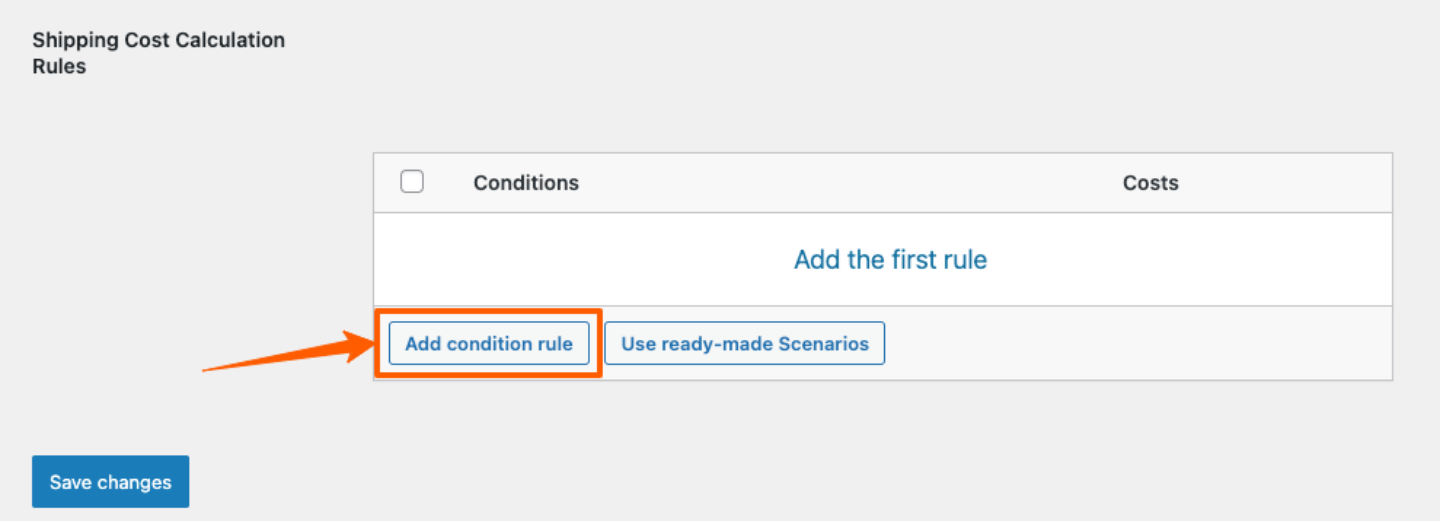

- Charge **$10 shipping** for orders going to **California, USA**.
- Apply **a different shipping fee** for orders to all other states in the US.

State Based Shipping Condition

1. Go to Advanced Shipping Method Settings

Scroll down and you will get this option to add shipping cost calculation rules.

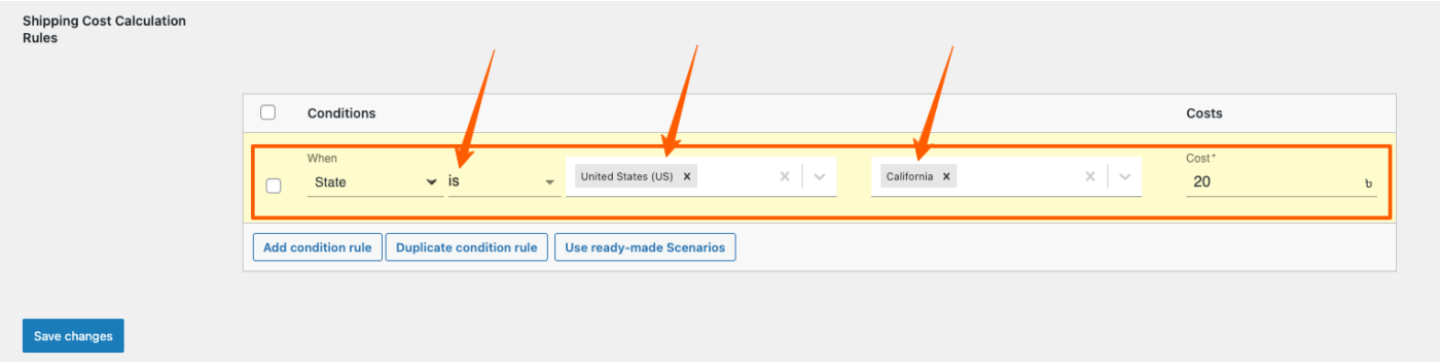

Click on the **Add condition rule** to set the price shipping condition for your WooCommerce store.

2. Now you can select “State“ condition by clicking on "When" field.

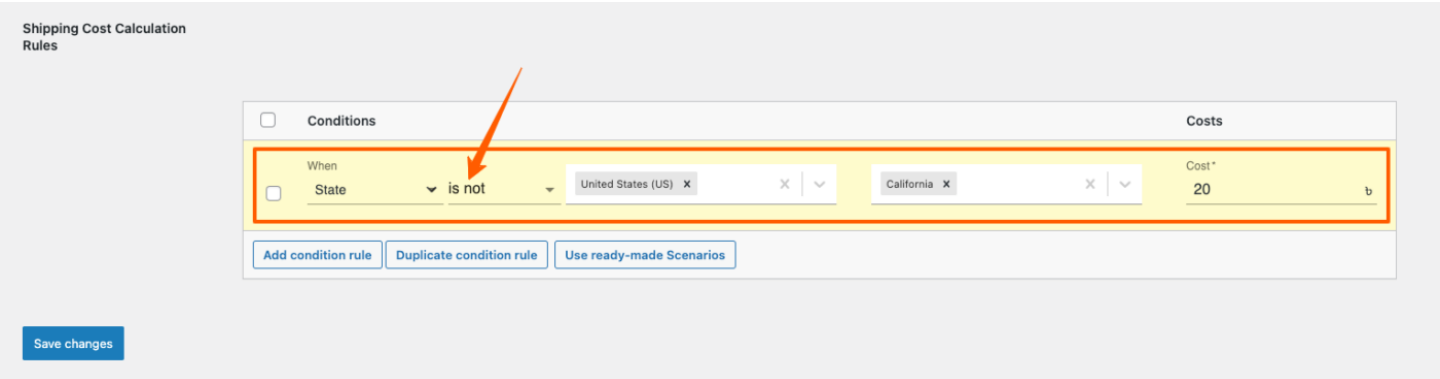

Select “**is**” to meet the condition. Then select the **Country** and the **State**

> ***Example 1:*** Lets set a Shipping Condition such that if there are any order to be delivered to the state of **California US**, there is will be an additional $10 Shipping Charge added.

> ***Example 2:*** Lets set a Shipping Condition such that if there are any order to be delivered outside the state of **California US**, there is will be an additional $20 Shipping Charge added.

Select “**State**“ condition by clicking on **When** field. Select “**is not**” to meet the condition. Then select the **Country** and the **State**

So, this is how easily you can set your state based shipping conditions for your WooCommerce Stores.
