How To Install & Activate The Advanced Shipping For WooCommerce

Getting Started · https://rextheme.com/docs/install-advanced-shipping-for-woocommerce/

The **Advanced Shipping for WooCommerce** plugin lets you set up flexible shipping rules tailored to your store's needs, no coding required. You can create conditions based on location, cart totals, weight, products, and more, giving you full control over how shipping is calculated for your customers.

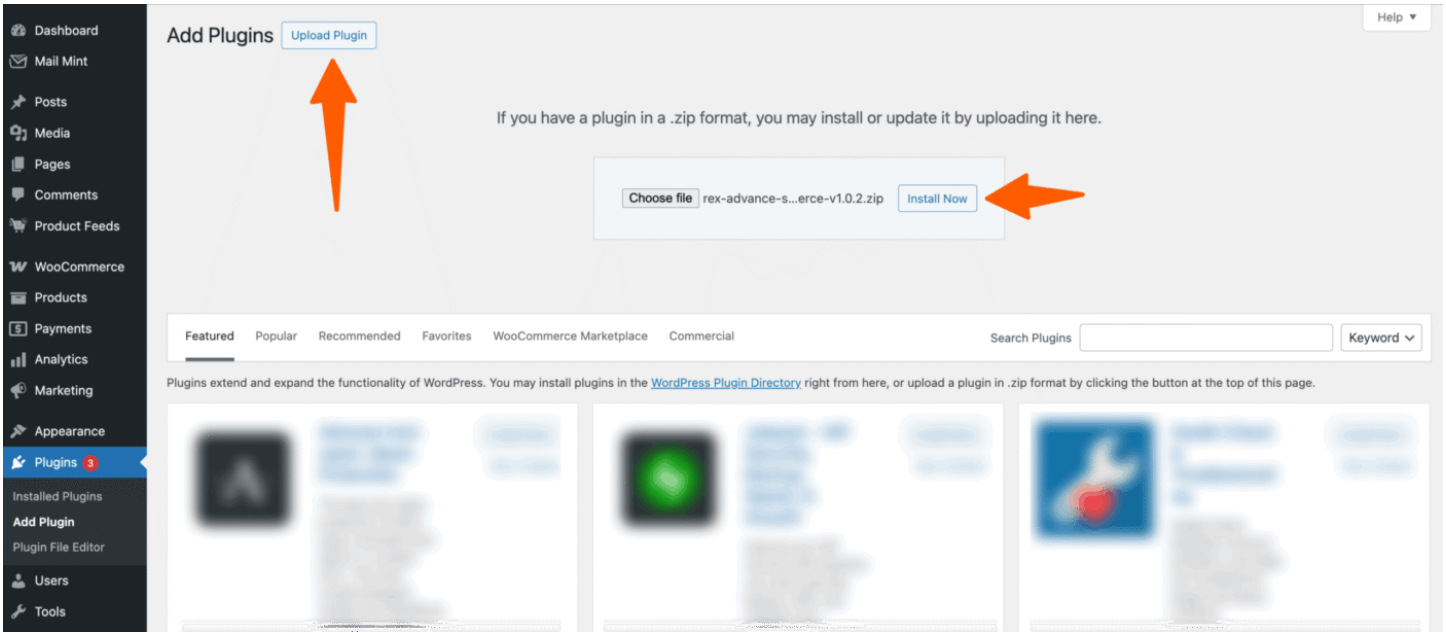

In this guide, we'll walk you through how to install and activate the plugin so you can start configuring your custom shipping rules right away.

Install & Activate the Advanced Shipping For WooCommerce

1. Go to your RexTheme account and you'll find the **Advanced Shipping For WooCommerce** on your downloads.

2. Download the plugin > Then log in to your WordPress site and go to **Plugins > Add New**.

3. On top, click on **Upload Plugin** and upload the zip file of the **Advanced Shipping for WooCommerce** that you downloaded earlier.

4. Then click on Install and then Activate it.

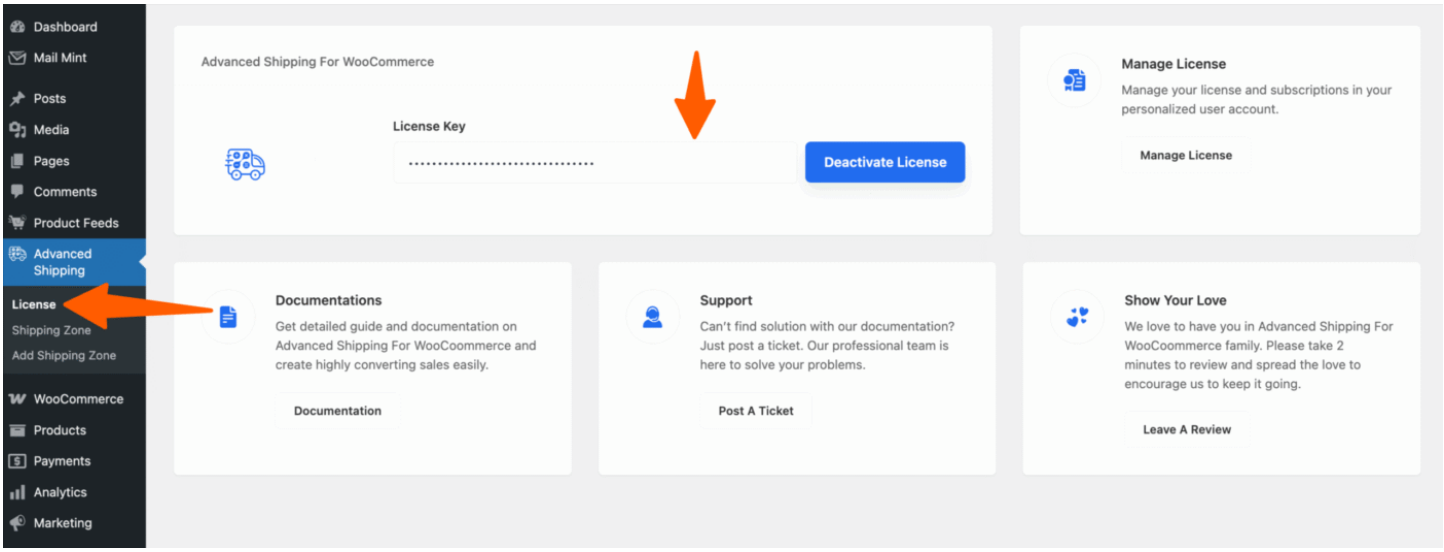

Activate The License Key For Advance Shipping For WooCommerce

1. Collect the license key from your RexTheme user account.

2. Once the plugin is activated a module will appear named “**Advanced Shipping**“.

3. Hover on the module and go to the License tab.

4. Then, enter the license key and press the **Activate License button**. Once activated, you will get a confirmation.

2. Once **Advanced Shipping for WooCommerce** is activated, you'll get a module named **"Advanced Shipping"** and when you click on it you'll get the shipping setting.

You're now ready to create advanced shipping strategies for your WooCommerce store.
