License Plan Upgrade Guide for Cart Lift Pro

Upgrade To Cart Lift Pro · https://rextheme.com/docs/license-plan-upgrade-guide-for-cart-lift-pro/

Upgrading your Cart Lift Pro license unlocks additional features and support to better meet your growing business needs. This guide provides a quick and easy overview of the steps to upgrade your license plan to meet your requirements.

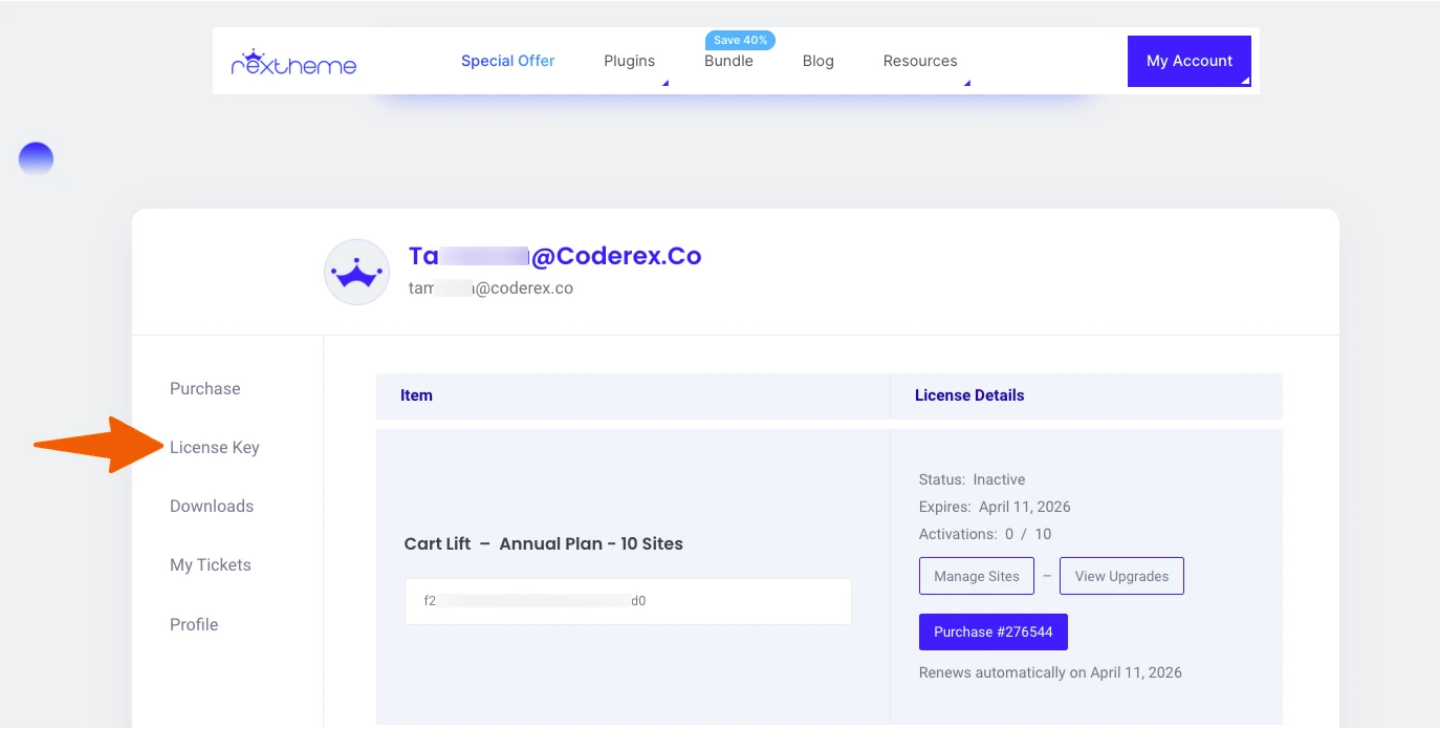

**Please note that license upgrades are only available to a higher plan. Downgrading your plan is not permitted.

License Upgrade Process:

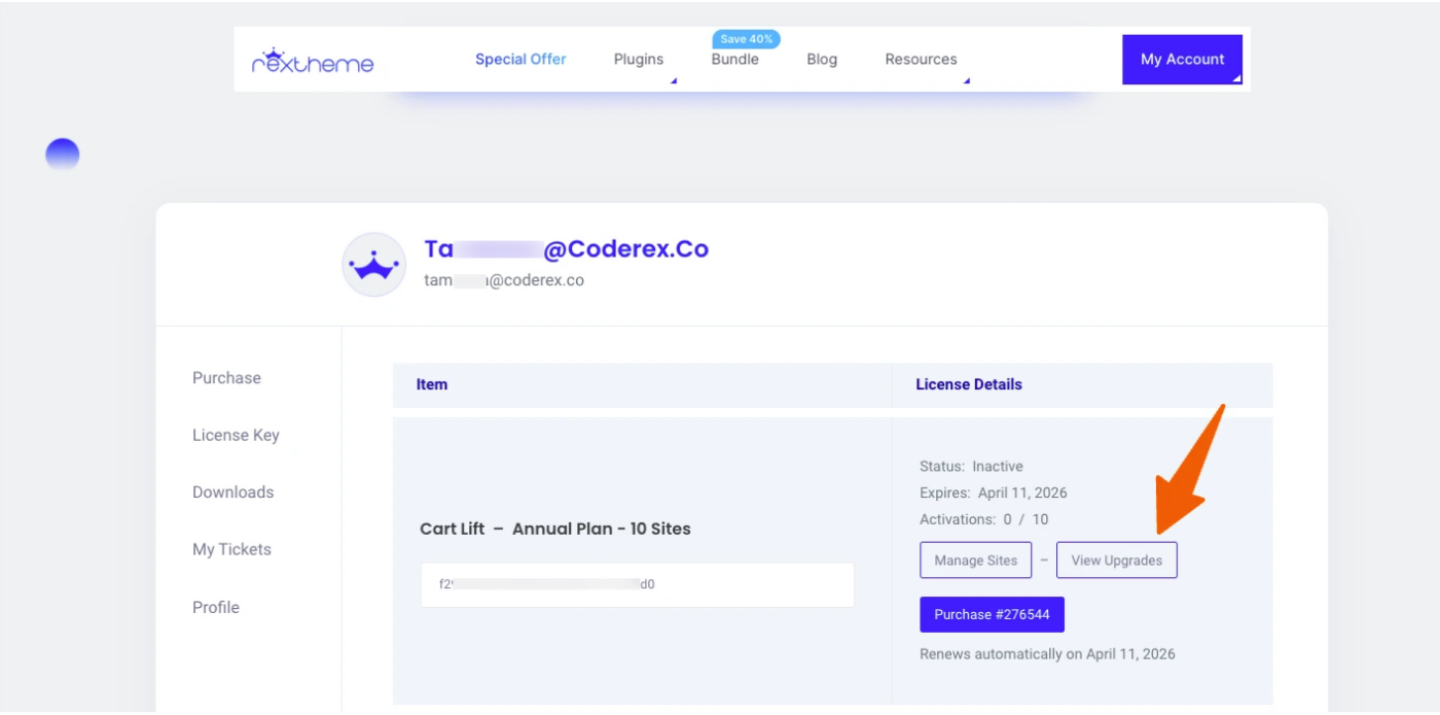

We offer multiple plans for our plugins, each with unique features and capabilities tailored to different needs.

To upgrade your license follow this process:

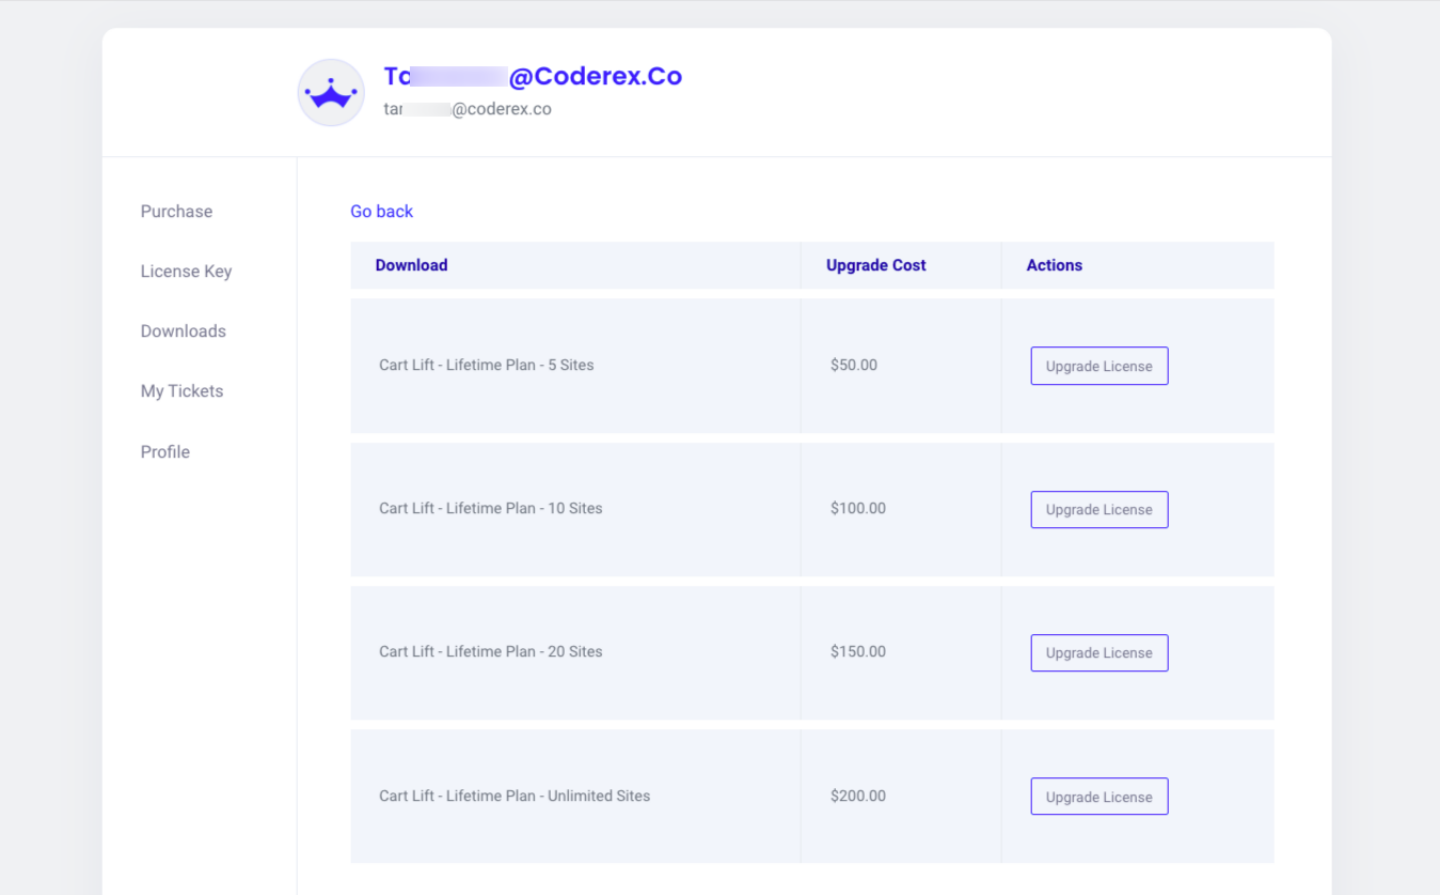

1. Log in to your RexTheme user account and navigate to the **License Key** section.

2. On the right side of your current license, locate the **View Upgrades** button. Clicking this button will display the available upgrade plans suitable for your needs.

3. Select your desired plan and click the **Upgrade License** button on the right side of the plan you wish to upgrade to.

For instance, if you initially purchased the Basic annual plan and wish to upgrade to the Premium annual plan, you'll only need to pay the difference.

That's how straightforward it is.
