How To Add Advanced Shipping To An Existing Shipping Zone

Getting Started · https://rextheme.com/docs/setting-advanced-shipping-to-existing-shipping-zone/

If you are new to **Advanced Shiping for WooCommerce**, the first thing to do is learn to "Add a shipping zone" for your WooCommerce store.

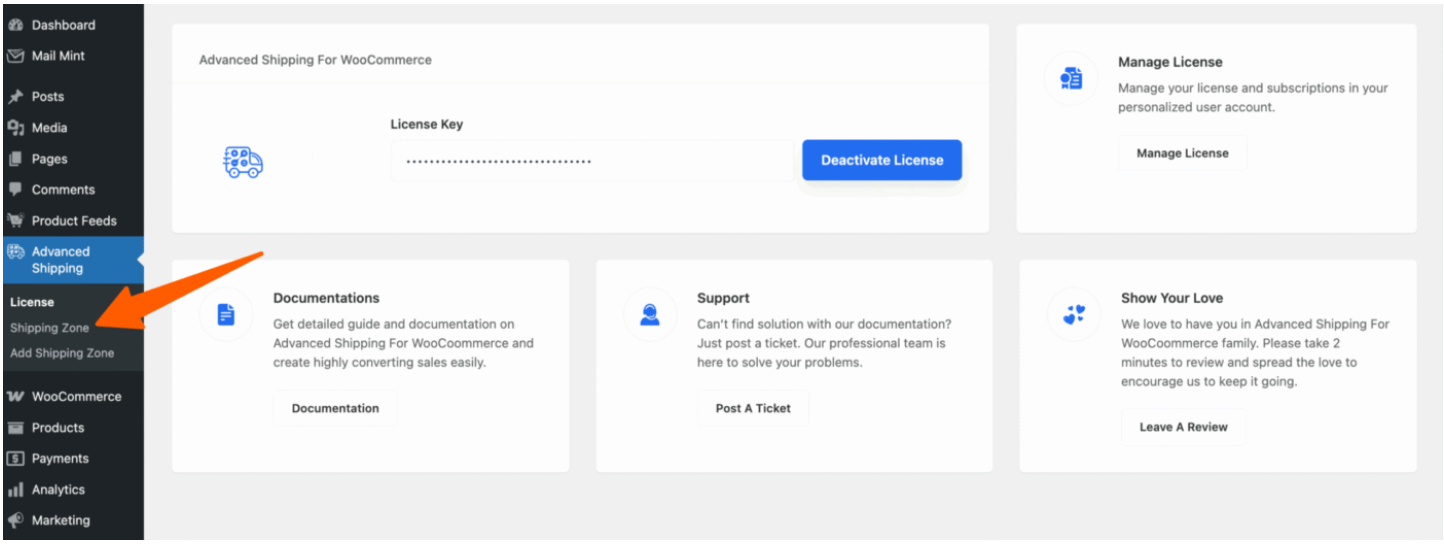

After that, you will learn how to add **Advanced Shipping** to that shipping zone you created step by step.

So, let’s take the first step.

Add a Shipping Zone On Your WooCommerce Store

** Before starting, make sure you installed the **Advanced Shipping** plugin and your license key is activated.

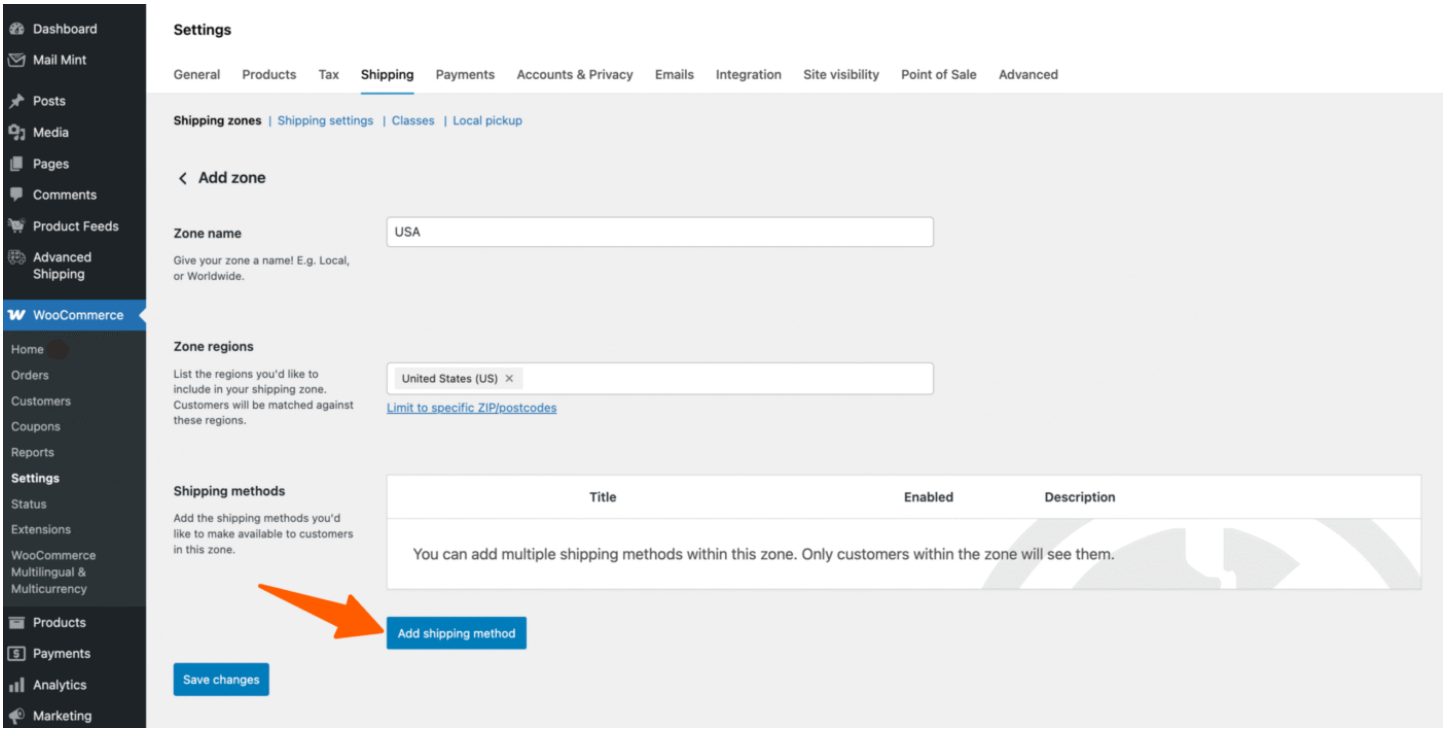

1. Go to **Advanced Shipping > Shipping zone**.

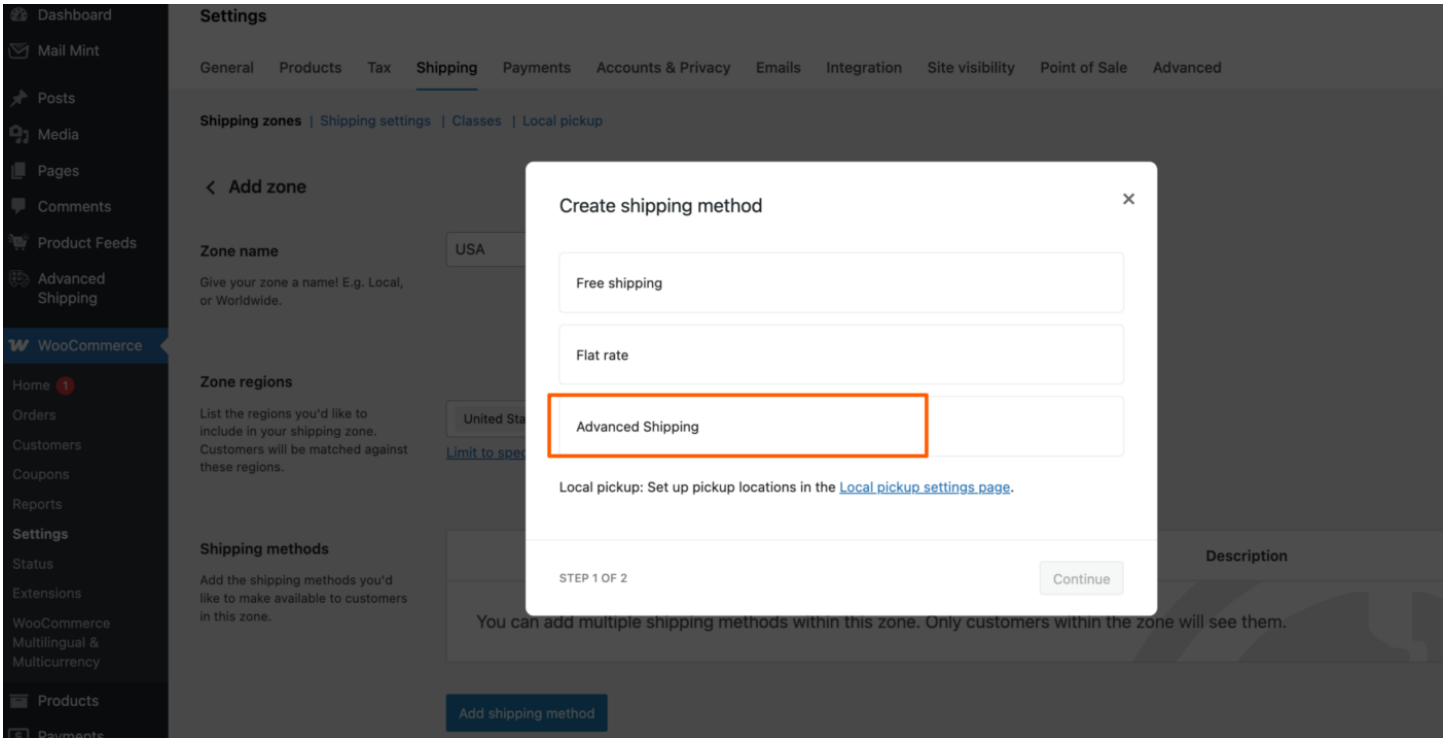

2. Now select your existing shipping zone where you want to configure a shipping rate for your shipping service. Click on **Edit**

Set Up "Advanced Shipping" As A Shipping Method On Your WooCommerce Store

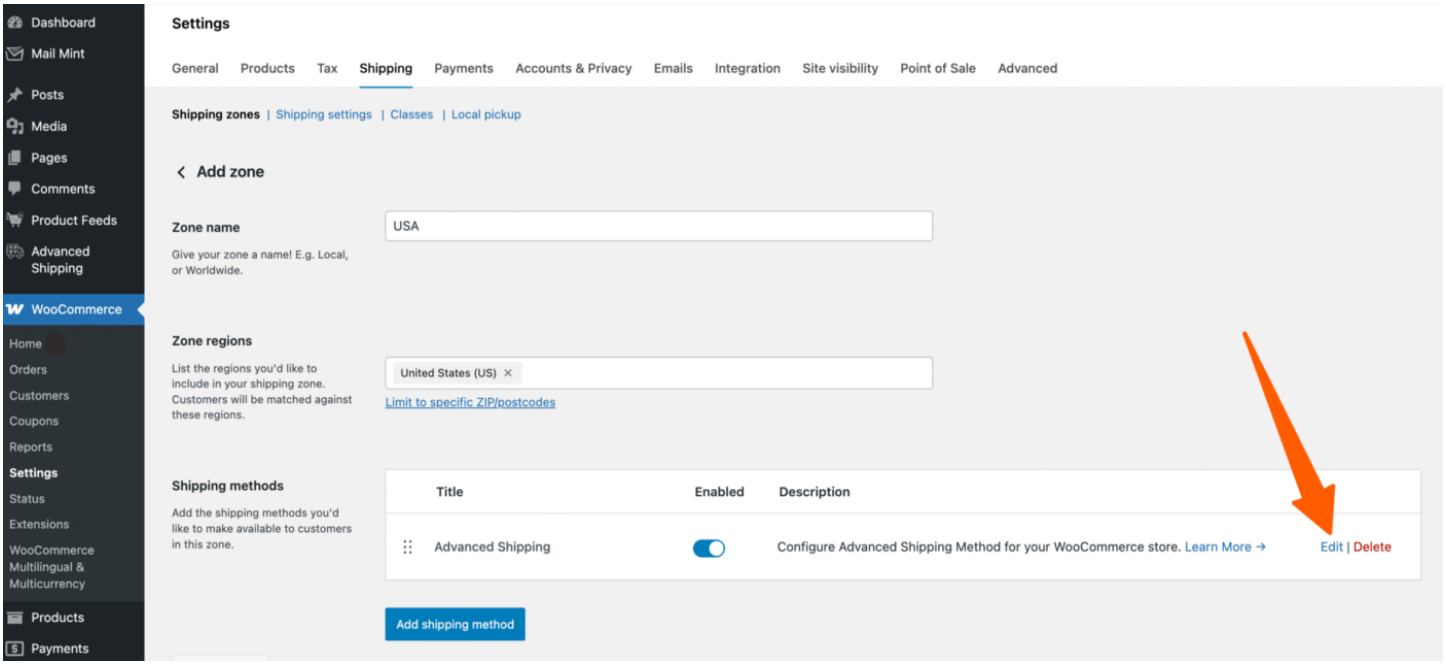

1. Now in the shipping zone, click on the **"Add Shipping Method"** button.

2. After that, set **"Advanced Shipping"** as your shipping method.

3. Once you've added **Advanced Shipping** as your Shipping method you can go ahead and start editing the shipping strategy by clicking "Edit"

That's it. this is how you can add Advanced Shipping as a shipping method on your preferred shipping zones. If you have existing zones set up on your WooCommerce store, then you can add Advanced Shipping there as well.

In the upcoming documentation you'll get an overview of the tool.

Basic Plugin Overview – Advanced Shipping For WooCommerce
